It is Sul Ross State University policy to provide reasonable accommodations to students with disabilities. If you would like to request such accommodations because of a physical, mental, or learning disability, please contact the ADA coordinator for Program Accessibility. Call 837-8203.

Prerequisites

Music major in the BA degree program. Music 3111, three semesters; Music 3211, two semesters.

Objectives

The student will:

1. Understand basic anatomy of performance.
2. Scan the body for performance difficulties using body mapping.
3. Apply and demonstrate specific exercises.
4. Understand and analyze components of music using appropriate terminology.
5. Synthesize information about music and the instrument.
6. Perform with appropriate expression.
7. Prepare all aspects of public performance, including program and program notes (research), rehearsal with accompanist(s), stage deportment, and recital etiquette.

Program learning outcomes: The graduating music student will demonstrate that he/she:

1. is able to integrate appropriate musical expression into performance;
2. is able to prepare appropriate program notes;
3. is able to evaluate and critique a musical performance; and
4. has a general knowledge of music history.

Studio Class

Students will be expected to perform on all studio classes in preparation for the recital.

Hearing

A hearing in front of three music faculty must be successfully completed no less than two weeks before the recital, but preferably longer.

Recordings

Students will be assigned (individually) recordings to listen to in conjunction with lessons. Listening will not be formal assignments, but is expected when requested.

Grading Point System

Lessons (15 total; maximum 4 pts./lesson)	60
Attend studio classes	20
Perform at studio class	20
Perform student recital	60
Program notes	60
TOTAL MAXIMUM	190
A = 200-230	
B = 170-199	

C = 130-169

D = 110-129

F = less than 110

Program notes include a paragraph on the piece and composer. Use non-internet sources (Wikipedia is great for reading information, but not for notes per se. Bibliographic information on Wikipedia may or may not be helpful.) Use the Grove Music Online, available from the library's list of databases.

Using Practice Time Wisely

You must find your own practice routine that works for you. Using practice time wisely is sometimes the most difficult thing to do in music study. Yet it is most important, because development of musicianship and the coordination of the muscles involved in performing, like any other skill involving muscle coordination, happen over time with consistent, regular training. The learning of music literature also takes time; therefore, efficient use of practice time is often the difference in being a successful musician. Your voice is your instrument—the more proficient you are, the better performer, teacher, and person you will be! Plan on one hour per day minimum, as a singer, two hours daily as an instrumentalist, at least five days per week.
