You will have 3 hours to complete the Final exam.

Blackboard and Activities: 30%

The utilization of Blackboard will be an important component of this course. Blackboard Discussion Board assignments will be due on a weekly basis. Assignments will be posted on Wednesdays, after class and will be due on **Sundays at 12 midnight**. At a MAXIMUM, late assignments will receive a grade of 50% of the original grade.

An important component of this class is reading and sharing other student's views. Therefore, we will need to do this via the Discussion Board in Blackboard.

DVD “The Case of Stan”: 15%

Viewing this DVD will be a course requirement. Questions pertaining to each video clip will be posted in Blackboard, under “Discussion Board.” There will be a separate Forum for Blackboard assignments and DVD assignments. Assignments will be posted on Wednesdays, after class and will be due on **Sundays at 12 midnight**. Late assignments will not be accepted!

Grading Rubric:

I will utilize a Discussion Board Rubric to grade all assignments posted to the Discussion Board in Blackboard. This rubric will be posted in Blackboard under “Course Documents” for you to view and print out. Grading will be based on the thoroughness and depth of your written responses. I will not individually respond to your written assignments, but will use the grading rubric to base my evaluation. Your grades will be posted on a weekly basis in the Grade Center. This will enable you to keep up with your grades throughout the semester.

Group Presentation: 15%

Students will work in small groups on a presentation related to theories presented in Chapters 4-14. Your presentation must include AT LEAST 6 scholarly references from juried professional counseling or psychology journals. Use as many sources as needed to make sure your presentation fully and accurately informs your classmates about the theory that you have selected. Your presentation should be 30 minutes in length. In presenting the theory, be sure to include:

- Description of the theory
- Hallmarks that distinguish this theory from other related theories
- The therapeutic process
- Therapeutic aspects or dynamics of the theory that seem to bring about significant success in therapy
- Techniques and Procedures
- The strengths and limitations of the theory
- Describe how success is measured
- List of references used

The rubric that I will be utilizing to grade this assignment will be posted under “Course Documents” in Blackboard. Be sure and use it as a reference as you prepare for your presentation.
