

History 3309 – History of Texas –

Instructor: Professor Dr. Robert Overfelt

Email: roberto@sulross.edu

Spring - 1916

Text: History of Texas, 5th edition, A. DeLeon ,et al. This book will be available in the 5th edition; however, students can also use the 4th edition.

Instructions: The History of Texas class will be a web based internet class. Each student should have access to a computer either at home or at one of the RGC computer labs. Each student must make a commitment to keep pace with the course schedule.

Students should be familiar with the course syllabus. Exams will be given only on line. Students should arrange their schedules to make sure they complete all self assessments and exams as they are offered. Students must complete all self assessment to receive credit for the course. A total of 4 points for each missed self assessment will be deducted from the student's total grade.

The self assessments will be given weekly and they can be found under Self Assessments on Blackboard. They will only be posted for one day and available from 8 a.m. until 11 p.m. Students will have 19 minutes to complete the self assessments. After completing the self assessment, you will not see a score, only an indication that you completed the self assessment. The answers will be available the following day from 8 a.m. until 11 p.m. Students will not be able to print the self assessments. If you choose to write down the questions, you may. The answers likewise will not be available for printing. When the answers are posted they will not be shown with the questions, so it would be advisable that students write the questions in order to check their answers. **STUDENTS MUST COMPLETE ALL SELF ASSESSMENTS TO RECEIVE CREDIT FOR THE COURSE.** For students who fail to complete a self assessment 4 points will be deducted from their total grade.

Excuses for missed exams will not be accepted. **If a student misses an exam for "any reason", that student will be required to take the makeup exam in the Del Rio RGC computer lab at a scheduled time.** It is highly recommended that students complete all exams in the RGC computer labs. All exams will be timed and if you are working from home and are inadvertently dropped from your connection, I will be required to re open your exam. If that should happen there will be a deduction of 3 points from your score. All exams (there will be four) will have a 50 minute time limit. Students who exceed that time will have points deducted from their exam results. Deductions are as follows: 0-59 secs. – 2 points; 1-2 minutes – 4 points; 2-3 minutes- 6 points; and so on.

Students must participate in three (3) separate discussion sessions. The discussion sessions are indicated on the syllabus. A topic will be posted for that indicated week and students are expected to address the topic and comment on the comments of their fellow students.

Students will also be required to submit a short one page essay. I will post instructions for the completion of that assignment.

Calendar:

Students should complete each chapter self assessment- **The answers will be posted the following day- Example – Chapter 1 self assessment is Jan 26, the answers will be posted on Jan 27.**

Jan 19-26(27) – Orientation – Read syllabus and check discussion board to introduce yourself.

3 discussions – 25 points each – 5% each =15% of final grade.

1 Short Discussion essay – 5% = 5% of final grade.

Distance Education Statement: Students enrolled in distance education courses have equal access to the university's academic support services, library resources, and instructional technology support. For more information about accessing these resources, visit the SRSU website. Students should submit online assignments through Blackboard or SRSU email, which require secure login information to verify students' identities and to protect students' information. *[If the course requires students to take proctored exams or to purchase additional software or equipment, please describe those requirements here.]* The procedures for filing a student complaint are included in the student handbook. Students enrolled in distance education courses at Sul Ross are expected to adhere to all policies pertaining to academic honesty and appropriate student conduct, as described in the student handbook. Students in web-based courses must maintain appropriate equipment and software, according to the needs and requirements of the course, as outlined on the SRSU website.
