

3301

Math/Science Methods For the Elementary Teacher Summer II 2016

Instructor Information:

Dr. Monica Gutierrez
E-mail: monicag@sulross.edu
Phone: (830) 279-3021

Course Description:

A study of effective teaching practices to enhance delivery of Math/Science in the elementary grades K-6.

Class Sessions:

Online

Course Requirements and Grading:

A = 90-100%
B = 80-89%
C = 70-79%
D = 60-69%
F = 59 and ↓

- ✓ Presentation – 40%
- ✓ Final Exam – 10%
- ✓ Lesson Plan – 15%
- ✓ Evidence of Learning
- ✓ Blackboard – 35%

Total of 100%

Program Learning Outcomes

The learner will:

1. Construct lesson plans following the Madeline Hunter lesson cycle. TEKS and objectives, alongside PPR Standards will be included in the lesson plans.
Assessment: Presentations, Lesson Plans
2. Utilize instructional technological resources to enhance student learning.
Assessment: Presentations
3. Review responsibilities related to the STAAR standardized assessment.
Assessment: Classroom Discussions, Presentations
4. Identify the range of individual developmental differences and how to differentiate instruction for students in early childhood through grade 6.
Assessment: Videos, Presentations, Lesson Plans
5. Become familiar with and keep documentation of the math and science TEKS, grades K-6. The learner will keep an organized system of file folders for the different lessons presented and will be able to orally explain the purpose of the different TEKS.
Assessment: File Folders/binder, Oral Defense
6. Make a group presentation in both math and science, which will be graded utilizing a rubric. This lesson will be presented to fellow classmates, and will include visuals, demonstrations, and activities as to how to teach concepts.
Assessment: Presentations, Class Discussion, Exam
7. View videos in class that demonstrate best practices of teachers teaching math and science lessons via a virtual classroom format. Students will turn in a notebook summarizing their learning experience.
Assessment: Videos, Field Experience, Notebook
8. Review competencies and domains in the Math and Science areas on the Generalist exam. In addition, the learner will take a pre and a post Generalist practice exam that will provide them with feedback as to areas that may need remediation.
Assessment: Practice Generalist exam
9. Take part in a 5 hour field experience that exposes them to actual teaching.
Assessment: Field Experience

Evaluation:

The learner will be evaluated utilizing the following methods in order to ensure that the learning outcomes are being addressed: The learner will make a small group classroom presentation over both a Math and Science lesson. Classroom discussions will follow these presentations and these presentations will be graded using a rubric. Additionally, the learner will write lesson plans in both Math and Science. Also, the learner will participate in a 5 hour field experience alongside with viewing videos of master teaching. Submission of written summaries and a reflection paper will be required. A midterm exam that focuses on utilizing TEKS and writing lesson plans will be administered. An individual oral defense exam will take place at the end of the semester with file folders/binder turned in. Students will take practice Generalist Exams at the beginning and end of the semester.

TEXES Standards

Generalist EC-6 Standards

Math Standards:

Standard VII. Mathematical Learning and Instruction: The mathematics teacher understands how children learn and develop mathematical skills, procedures, and concepts, knows typical errors students make, and uses this knowledge to plan, organize, and implement instruction; to meet curriculum goals; and to teach all students to understand and use mathematics.

Standard VIII. Mathematical Assessment: The mathematics teacher understands assessment and uses a variety of formal and informal assessment techniques appropriate to the learner on an ongoing basis to monitor and guide instruction and to evaluate and report student progress.

Standard IX. Professional Development: The mathematics teacher understands mathematics teaching as a profession, knows the value and rewards of being a reflective practitioner, and realizes the importance of making a lifelong commitment to professional growth and development.

Science Standards:

Standard VIII. The science teacher knows and understands the science content appropriate to teach the statewide curriculum (Texas Essential Knowledge and Skills [TEKS]) in physical science.

Standard IX. The science teacher knows and understands the science content appropriate to teach the statewide curriculum (Texas Essential Knowledge and Skills [TEKS]) in life science.

Standard X. The science teacher knows and understands the science content appropriate to teach the statewide curriculum (Texas Essential Knowledge and Skills [TEKS]) in Earth and space science.

TEXES Standards

Pedagogical and Professional Responsibilities (PPR) Standards (EC-Grade 12)

Standard 1. The teacher designs instruction appropriate for all students that reflects an understanding of relevant content and is based on continuous and appropriate assessment.

Teacher Knowledge: What Teachers Know Teachers of Students in Grades EC-12 <i>The beginning teacher knows and understands:</i>	Application: What Teachers Can Do Teachers in Grades EC-12 <i>The beginning teacher is able to:</i>
<p>Students</p> <p>1.6k appropriate strategies for instructing English language learners.</p>	<p>Students</p> <p>1.1s plan lessons that reflect an understanding of students' developmental characteristics and needs;</p> <p>1.2s adapt lessons to address students' varied backgrounds, skills, interests, and learning needs, including the needs of English language learners.</p>
<p>Content and Pedagogy</p> <p>1.7k the importance of the state content and performance standards as outlined in the Texas Essential Knowledge and Skills (TEKS);</p> <p>1.9k the significance of the vertical alignment of content, including prerequisite knowledge and skills;</p> <p>1.11k current research on best pedagogical practices.</p>	<p>Content and Pedagogy</p> <p>1.6s use the Texas Essential Knowledge and Skills (TEKS) to plan instruction</p> <p>1.9s plan instruction that reflects an understanding of important prerequisite relationships;</p> <p>1.11s use a variety of pedagogical techniques to convey information and teach skills.</p>
<p>Selection of Instructional Goals and Objectives</p> <p>1.12k the importance of developing instructional goals and objectives that are clear, relevant, meaningful, and age-appropriate;</p> <p>1.13k the importance of developing instructional goals and objectives that can be assessed;</p> <p>1.14k the importance of developing instructional goals and objectives that are suitable for students with varied learning needs; and</p> <p>1.15k the importance of aligning instructional goals with campus and district goals.</p>	<p>Selection of Instructional Goals and Objectives</p> <p>1.12s develop instructional goals and objectives that are clear, relevant, meaningful, and age-appropriate;</p> <p>1.13s develop instructional goals and objectives that are able to be assessed;</p> <p>1.14s develop instructional goals and objectives that reflect students' age, developmental level, prior skills and knowledge, background, and interests; and</p> <p>1.15s develop instructional goals and objectives that reflect different types of student learning and skills.</p>
<p>Resources</p> <p>1.16k the use of appropriate materials and resources for preparing instruction, presenting lessons, and</p>	<p>Resources</p> <p>1.16s use various types of materials and other resources to aid in preparing and implementing</p>

assessing learning.	instruction.
<p>Designing Coherent Instruction</p> <p>1.19k the importance of designing instruction that reflects the TEKS;</p> <p>1.21k the importance of planning lessons and structuring units so that activities progress in a logical sequence;</p> <p>1.24k the importance of engaging in continuous monitoring and self-assessment of instructional effectiveness.</p>	<p>Designing Coherent Instruction</p> <p>1.19s plan instructional activities that progress sequentially and support stated instructional goals based on the TEKS;</p> <p>1.20s select instructional resources that support instructional goals, enhance student achievement, and engage students in learning;</p> <p>1.21s use varied activities and instructional groupings to engage students in instructional content and meet instructional goals and objectives;</p> <p>1.23s provide students with opportunities to explore content from many perspectives.</p>
<p>Assessment of Student Learning</p> <p>1.25k the role of assessment in guiding instructional planning;</p> <p>1.26k the importance of creating assessments that are congruent with instructional goals and objectives;</p> <p>1.30k the connection between the Texas statewide assessment program, the TEKS, and instruction.</p>	<p>Assessment of Student Learning</p> <p>1.24s use a variety of assessment methods, including technology, that are appropriate for evaluating student achievement of instructional goals and objectives;</p> <p>1.25s communicate assessment criteria and standards to students;</p> <p>1.26s design assessments, where appropriate, that reflect real-world applications of knowledge and understanding;</p> <p>1.27s promote students' use of self-monitoring and self-assessment.</p>

Standard II. The teacher creates a classroom environment of respect and rapport that fosters a positive climate for learning, equity, and excellence.

<p>Teacher Knowledge: What Teachers Know Teachers of Students in Grades EC-12</p> <p><i>The beginning teacher knows and understands:</i></p>	<p>Application: What Teachers Can Do Teachers in Grades EC-12</p> <p><i>The beginning teacher is able to:</i></p>
<p>Establishing an Environment for Learning and Excellence</p> <p>2.4k the importance of communicating enthusiasm for learning; and</p> <p>2.5k the necessity of communicating teacher expectations for student learning.</p>	<p>Establishing an Environment for Learning and Excellence</p> <p>2.4s communicate to all students the importance of instructional content and the expectation of high-quality work; and</p> <p>2.5s ensure that instructional goals and objectives, activities, classroom interactions, assessments, and other elements of the classroom environment convey high expectations for student achievement.</p>

Standard III. The teacher promotes student learning by providing responsive instruction that makes use of effective communication techniques, instructional strategies that actively engage students in the learning process, and timely, high-quality feedback.

<p>Communication</p> <p>3.1k the importance of clear, accurate communication in the teaching and learning process;</p> <p>3.2k principles and strategies for communicating effectively in varied teaching and learning contexts;</p> <p>3.3k spoken and written language that is appropriate to students' ages, interests, and backgrounds; and</p> <p>3.4k skills and strategies for engaging in skilled questioning and leading effective student discussions.</p>	<p>Communication</p> <p>3.1s communicate directions, explanations, and procedures clearly, accurately, and with an appropriate level of detail, both orally and in writing;</p> <p>3.2s use effective interpersonal skills (including both verbal and nonverbal skills) to reach students and communicate the teacher's commitment to students;</p> <p>3.3s use spoken and written language that is appropriate to students' ages, interests, and backgrounds;</p> <p>3.4s use effective communication techniques, including questioning and discussion techniques, to foster active student inquiry, higher-order thinking, problem solving, and productive, supportive interactions;</p> <p>3.5s use carefully framed questions to enable students to reflect on their understanding of content and to consider new possibilities; and</p> <p>3.6s apply skills for leading discussions that engage all students in exploring important questions and that extend students' knowledge.</p>
<p>Engaging Students in Learning</p> <p>3.5k criteria for selecting appropriate instructional activities and assignments for students with varied characteristics and needs;</p> <p>3.11k techniques for structuring and pacing lessons in ways that promote student engagement and learning.</p>	<p>Engaging Students in Learning</p> <p>3.7s create lessons with a clearly defined structure around which activities are organized;</p> <p>3.8s create activities and assignments that are appropriate for students and that actively engage them in the learning process;</p> <p>3.9s select and use instructional materials, resources, and technologies that are suitable for instructional goals and that engage students cognitively;</p> <p>3.13s engage students intellectually by teaching meaningful content in ways that promote all students' active and invested participation in the learning process; and</p> <p>3.14s encourage students' self-motivation and active engagement in learning.</p>

Course Outline

Pedagogy

(TEXES PPR Standards: 1.6k, 1.1s, 1.2s , 1.7k, 1.9k, 1.11k, 1.6s, 1.9s, 1.11s)

- Implementation of TEKS in math/science lesson
- Relationship to prior/future learning
- Content sequence
- Instruction serving English Language Learners

Designing Instruction

(TEXES PPR Standards: 1.12k-1.16k, 1.12s-1.16s, 1.19k, 1.21k, 1.24k, 1.19s-1.12s)

- Development of instructional goals and objectives
- Utilize content sequence
- Develop goals that are measurable and can be assessed

Assessing Student Learning

(TEXES PPR Standards: 1.25k, 1.26k, 1.30k, 1.24s-1.27s)

- Monitor student learning and provide feedback
- Monitor lesson presentation and connect with original instructional goals and objectives and with the STAAR exam.

Meeting Students' Academic Needs

(2.4k, 2.5k, 2.4s, 2.5s, 3.1k-3.4k, 3.1s-3.6s, 3.5k, 3.11k, 3.7s-3.9s, 3.13s, 3.14s)

- Engaged learning
- Teacher expectations
- Clear administrative directions
- Relates instruction to interests and emphasizes value/importance
- Provides enrichment/extension

TENTATIVE SCHEDULE

<u>Date</u>	<u>Assignment</u>
July 8 (Fri.)	Introductions/Syllabus/Course Description, Expectations TEKS TExES Preparation Resources Study Madeline Hunter Rubric and Presentation Rubric
July 13 (Wed.)	Discussion Board Assignments Due
July 14 (Thurs.)	Group 1 Presenters post Presentation, Math K-2
July 20 (Wed.)	Discussion Board Assignments Due
July 21 (Thurs.)	Group 2 Presenters post Presentation, Math 3-6
July 27 (Wed.)	Discussion Board Assignments Due
July 28 (Thurs.)	Group 3 Presenters post Presentation, Science K-2
August 3 (Wed.)	Discussion Board Assignments Due
August 4 (Thurs.)	Final Exam Online- 1:00-4:00 p.m.

Group 1 Math

1. Merary A.(K)
2. Bianca B. (1)
3. Germaine D. (2)
4. Vanessa D. (K)
5. Elsa G. (1)
6. Mayra G. (2)
7. Jannette G. (K)

Group 2 Math

1. Maria G. (3)
2. Deanna G. (4)
3. Erika H. (5)
4. Jessica I. (6)
5. Michely M.(3)
6. Dayanara M. (4)
7. Krystal M. (5)

Group 3 Science

1. Carmen R. (2)
2. Aide R. (2)
3. Alicia T. (K)
4. Melina T. (1)
5. Janette V. (2)
6. Mayra W. (K)
7. Yazmin Z. (1)

I have assigned you a group, a subject and a grade level. For example, Merary is in group 1 and is person #1 and will post her presentation on Thursday, July 14. Meanwhile, the two other students who are # 1 in their group (Maria G. and Carmen R.) will post feedback on Discussion Board related to Merary's PowerPoint presentation and lesson. This feedback is due Wednesday, July 20. Etc.... Next week when group 2, Maria presents, Merary and Carmen will post feedback related to Maria's PowerPoint lesson by Wednesday, July 27. Etc.....

ASSIGNMENTS AND REQUIREMENTS

Exam: 10%

There will be an online Final exam worth 10%. This exam will be available Thursday, August 4th from 1:00- 4:00 p.m.

Presentations: 40%

Students will work on presentations related to a math or science lesson, as assigned. PowerPoint presentations are to be posted online and will be graded utilizing a rubric that can be located under "Content" in Blackboard. You will be required to post PowerPoint presentation that include speaker notes. If you don't know how to add speaker notes, go to the computer lab at your site and get assistance. You will also be required to post handouts and materials needed for any activities related to your PowerPoint to Discussion Board.

Lesson Plan: 15%

Students will be expected to type up a lesson plan and post on Discussion Board when their PowerPoint Presentation is due. I will be grading Lesson Plans utilizing a rubric. The Madeline Hunter Lesson Plan rubric can be located under "Content" in Blackboard.

Blackboard : 35%

When it is not your turn to post a Presentation, you will thoroughly read the PowerPoint Presentation associated with your number. You are to follow along with the lesson plan and complete any activities and/or handouts that go with the lesson. After this, you are to write feedback on Discussion Board as to whether the presentation was thorough and easy to follow, whether instructions were clear and how long it took to complete the lesson. Keep in mind that we will be sharing constructive feedback, not cutting anyone down. Constructive feedback is information that assists you such as "I was a little confused with Activity 2. It would have been helpful if detailed instructions were posted."

Disability Statement Learning

SRSU Rio Grande College, a Member of the Texas State University System, supports equal employment and educational opportunities for all persons. No person shall be excluded from participation in, denied the benefits of, or be subject to discrimination under any program or activity sponsored by Sul Ross State University Rio Grande College on any basis prohibited by applicable law, including but not limited to race, color, national origin, religion, sex, age or disability.

Distance Education Statement:

Students enrolled in distance education courses have equal access to the university's academic support services, library resources, and instructional technology support. For more information about accessing these resources, visit the SRSU website. Students should submit online assignments through Blackboard or SRSU email, which require secure login information to verify students' identities and to protect students' information. ***[If the course requires students to take proctored exams or to purchase additional software or equipment, please describe those requirements here.]*** The procedures for filing a student complaint are included in the student handbook. Students enrolled in distance education courses at Sul Ross are expected to adhere to all policies pertaining to academic honesty and appropriate student conduct, as described in the student handbook. Students in web-based courses must maintain appropriate equipment and software, according to the needs and requirements of the course, as outlined on the SRSU website.
