

ANIMAL SCIENCE 5326 ANIMAL REPRODUCTION

Instructor: Scott Ericsson

Spring 2017

Office: RAS 110

Time: Web-delivered

Office Hours: (MW) 1:00-4:00 pm

Meeting Place: Web-delivered

Phone: (432) 837-8260

Email: ericsson@sulross.edu

This web-delivered course will be accessible through Blackboard. Class correspondence will be through Blackboard or student's SRSU email account.

Course Description:

This course provides the student with a solid understanding of the anatomical, cellular and physiological mechanisms that control the endocrine and reproductive systems of humans, domestic animals and wildlife.

Course Objectives:

By the end of the course, you will be able to understand:

- The organization and function of the male and female reproductive tract.
- Hormonal regulation of reproduction.
- The onset of puberty.
- The estrous cycle – terminology and basic concepts.
- The follicular phase of the estrous cycle.
- The luteal phase of the estrous cycle.
- Spermatogenesis and oogenesis.
- Reproductive behavior.
- Gamete transport and fertilization.
- Early embryogenesis and maternal recognition of pregnancy.
- Parturition.

(ANSC) Program Learning Outcomes:

Student will demonstrate that he/she is able to:

1. Apply statistical concepts and procedures to animal science data.
2. Evaluate literature and references as they apply to the animal science field.
3. Demonstrate their knowledge of the fundamentals and advanced concepts relating to animal science.

Textbook: Required. The below item is necessary to achieve success in this class.

Essential Reproduction
Includes Wiley E-Text, 7th Edition
Martin H. Johnson
ISBN 978-1-4443-3575-0
March 2013, Wiley-Blackwell
Paperback, 392 pages

Amazon: <http://www.amazon.com>
Barnes & Noble: <http://www.barnesandnoble.com>

Exams and Grading:

There will be six exams. Exams will cover readings, PowerPoint presentations and study guide materials. Each exam has a value of 100 points (600 points total). There will be 6 assignments. Each assignment is worth 20 points (120 points total). Grade assignment (average of all exams and assignments): A =100-90; B = 89-80; C= 79-70; D = 69-60 and F= < 60.

Exam and Assignment Schedule:

Exam and Assignment

- 1 – Monday, February 6.
- 2 – Monday, February 20.
- 3 – Sunday, March 12.
- 4 – Monday, March 27.
- 5 – Monday, April 17.
- 6 – Wednesday, May 3.

Week Calendar (subject to change)

Week Presentation Order of Topics:

1-3 Chapter 1. What is reproduction
 Chapter 2. Sex
 Chapter 3. Sexual maturation
 Exam 1

4-5 Chapter 5. Sexual selection
 Chapter 6. Making sperm
 Exam 2

Readings and Assignments:

- Syllabus
- Textbook - Chapters 1-3
- Lecture slides – Chapters 1-3
- Assignment 1

- Textbook - Chapters 5-6
- Lecture slides – Chapters 5-6
- Assignment 2

6-9	Chapter 7. Men Chapter 8. Making eggs Spring Break Chapter 9. Women Exam 3	<ul style="list-style-type: none"> • Textbook - Chapters 7-9 • Lecture slides – Chapters 7-9 • Assignment 3
10-11	Chapter 10. Sperm and eggs Chapter 11. Fertilization Exam 4	<ul style="list-style-type: none"> • Textbook - Chapters 10-11 • Lecture slides – Chapters 10-11 • Assignments 4
12-13	Chapter 12. Initiating pregnancy Chapter 13. Supporting the embryo and fetus Exam 5	<ul style="list-style-type: none"> • Textbook - Chapters 12-13 • Lecture slides – Chapters 12-13 • Assignment 5
14-15	Chapter 14. Growing the fetus Chapter 17. Giving birth Exam 6	<ul style="list-style-type: none"> • Textbook - Chapters 14 and 17 • Lecture slides – Chapters 14 and 17 • Assignment 6
