COURSE RATIONALE: Motor Learning: An analysis of the theories and factors influencing the motor development of children and the learning of gross and fine motor skills.

TEXTBOOK: Haywood, Kathleen and Getchell, Nancy. Life Span Motor Development (5th Edition). Human Kinetics. Copyright 2014. ISBN: 978-1-4504-5699-9

STUDENT LEARNING OUTCOMES

- The teacher understands and applies principles of motor development and motor learning. *Competency 001*
- The teacher understands principles and practices developing, combining and integrating motor skills. *Competency 002*
- The teacher understands and applies knowledge of movement concepts and biomechanical principles. *Competency 003*

Standard I

The physical education teacher demonstrates competency in a variety of movement skills and helps students develop these skills.

COURSE OBJECTIVES: Students will be able to:

- A. Demonstrates knowledge of principles and stages of motor development.
- C. Demonstrates knowledge of principles and components of perceptual-motor development (e.g., body awareness; auditory, visual and kinesthetic discrimination) and their relationship to motor performance.
- D. Applies knowledge of techniques for evaluating motor skills, detecting errors in motor

performance and providing positive corrective feedback.

E. Demonstrates knowledge of characteristics and elements of manipulative skills (e.g., kick, strike, dribble) and mature motor patterns (e.g., throw, jump).

F. Demonstrates knowledge of activities, strategies, safety practices and equipment for promoting students' development of locomotor, nonlocomotor, body control, manipulative and rhythmic skills (e.g., animal walks, partner activities, chase and flee games).

H. Recognizes and analyzes key elements in combinations of motor skills, demonstrations of agility and balance and dance steps and sequences (e.g., pivot and throw; movement sequences that combine traveling, rolling, balancing and weight transfer).

STYLE OF TEACHING: The objectives of this course will be met through an integrated teaching style that will include discussion via Blackboard and PowerPoint presentations. Students will be encouraged to remain actively involved in class discussions and will be responsible for reading all assigned material for this class.

DISCUSSION QUESTIONS: There will be a discussion question posted under the discussion tab for you to respond (dates have not yet been determined). To respond to the discussion you click on the hyperlink to the discussion and then click on create new thread. Put your last name and the week in the subject line (eg. HectorDiscussion1). You can respond directly in the message area, however, I suggest you type your response in a word document, spell check, then copy and paste it into the message area. You can upload your response as an attachment, but please ALSO copy and paste it into the message area so we do not have to open an attachment to read your post. Each discussion post is worth 30 points.

Responses to others: Under each discussion post you must respond to another classmate's original discussion post. The response is worth 10 points (so a total of 20 points for class discussion is available for you to earn). The response must be more than "good job", "I like what you said", etc., it must be a substantial response that would be as if you were having a discussion on the topic in class. A substantial response would include, but not limited to: adding to the discussion with further information you find (cite your source), asking relevant questions, as well as critiquing in a positive way the post. ALWAYS spell check and edit your responses. These should be academic responses and not chat room or informal language. Do be respectful of others, do use proper language – do NOT hurt others feelings. To respond to another's post, click on their post and reply. Title the subject of your response with your last name and "response to _____ week 1 post" (eg. Hector's response to Henderson's Discussion 1 post).

GRADING:
