

**Chukwuemeka Ndukwe, DNP, MSN, BSN, RN-BC**

**Email:** Chuk.ndukwe@sulross.edu

As an accomplished nursing professional with over 10 years of experience in healthcare education, patient care, and leadership, I am committed to fostering quality education and care delivery with a client-focused approach. With extensive experience in supervisory and managerial roles, I have a proven track record of cost reduction, operational efficiency, and team leadership. My exceptional organizational, problem-solving, and mentoring skills ensure the development of future healthcare professionals. I am authorized to work in the U.S. for any employer.

I serve as an adjunct faculty member in the nursing department at Sul Ross University in Alpine, Texas, where I align curriculum and course development with institutional outcomes and innovative teaching strategies. I design and supervise clinical experiences to foster a conducive learning environment for nursing students, mentor and supervise students during patient care, and provide actionable feedback and remediation support. I integrate evidence-based practices into course content to prepare students for real-world healthcare challenges and regularly communicate with course coordinators to evaluate student progress and address concerns. Previously, I worked as an Adjunct Faculty member in the Nursing program at Abia State University Teaching Hospital in Waterside, Nigeria. In this role, I implemented the institution's educational philosophy and curriculum, focusing on student success. I supervised and evaluated students' clinical skills, provided detailed, constructive feedback, adapted teaching methodologies to meet diverse student needs, and maintained compliance with clinical policies and best practices.

My professional experience includes roles as a Registered Nurse at Reeves Regional Hospital, where I coordinated administrative tasks, including scheduling, patient admissions, and staff supervision. I maintained accurate patient medical records and vital sign monitoring, mentored new staff, and ensured compliance with health and safety regulations. At Encompass Health Rehabilitation Hospital in Midland, Texas, I provided direct care and managed treatment plans for patients with diverse diagnoses, including neurological and cardiac conditions. I supported patient recovery goals and facilitated reintegration into their communities.

As a Nurse Supervisor at First Rivers Hospital in Port Harcourt, I directed daily unit operations, staff assignments, and patient care strategies. I provided continuous supervision and training for RNs, LVNs, and CNAs, collaborated with multidisciplinary teams to enhance patient outcomes, and ensured safety standards. Earlier in my career, I worked as a Medical-Surgical Nurse at Pamo Hospital in Port Harcourt, delivering professional nursing care using the nursing process, coordinating interdisciplinary care plans, and documenting patient progress comprehensively.

I hold a Doctor of Nursing Practice (DNP), a Master of Science in Nursing (MSN), and a Bachelor of Science in Nursing (BSN) from Capella University in Minneapolis, Minnesota. I also earned an Associate of Applied Science in Nursing and completed a Licensed Vocational Nursing Program at Odessa College in Odessa, Texas. Additionally, I hold a Nursing Diploma (Registered Nurse) from the Nigeria Nursing Council, School of Nursing Emekuku, Nigeria, and a Bachelor of Science in Industrial Physics from Abia State University in Uturu, Nigeria.

My clinical expertise spans a wide range of areas, including Behavioral Healthcare (Psychiatric), Intensive Care Units (ICU) and Critical Care, Cath Lab, Dialysis Unit, Oncology, Emergency Department, Orthopedic and Neuro Unit, NICU, Labor and Delivery, Nursery, and

Postpartum Care. My key skills include leadership and mentorship in healthcare education, curriculum design and course development, evidence-based teaching methodologies, multidisciplinary collaboration, operational efficiency, and advanced clinical judgment and decision-making.

I have completed advanced certifications demonstrating my expertise and commitment to excellence in nursing. I am certified in the Trauma Nursing Core Course (TNCC), which equips me with the skills to manage trauma cases effectively. My certification in Advanced Cardiovascular Life Support (ACLS) enables me to provide critical care during cardiovascular emergencies. I am certified in Basic Life Support (BLS) and Cardiopulmonary Resuscitation (CPR) through the American Heart Association, ensuring swift and effective emergency response.
