Course Description:
   Collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals, and hypothesis testing. Use of appropriate technology is recommended.

Course Objectives:
   The student will be able to:
   1. Gather, organize, calculate, and present data;
   2. Work with probability distributions, both discrete and continuous, and recognize the proper distribution to use for different applications;
   3. Estimate population proportions, means, variances, and standard deviations; and
   4. Use hypothesis testing on population proportions, means, and standard deviations.

Course Assessment:
   Your grade will be based on the following components:
   10%    In-class problems and participation
   24%    Homework assignments and quizzes
   66%    Exams

   The grading scale will be:
   90 – 100 A    80 – 89 B    70 – 79 C    60 – 69 D    0 – 59 F

Attendance Policy:
Role will be taken. You are responsible for all material covered in class as well as any assignments and announcements that are made. If you miss an assignment, exam, or quiz you will receive a grade of zero unless I have been notified in advance.

Sul Ross State University policy allows an instructor to drop a student with a grade of W or F when 9 hours of class are missed. For this course that is when you miss 9 classes.

Cheating:
Cheating will not be tolerated. Anyone caught cheating will receive a grade of zero on that assignment. This includes homework assignments where the student who copied another student’s work and the student who allowed their work to be copied will both receive a grade of zero.

Cell Phones and Other Electronic Devices:
Your cell phone must be off while you are in class. You may not read or send text messages while class is in session. If there is an unusual situation where you simply must
be able to read and send a message without delay, place your phone in vibrate mode and leave the room before reading and responding. No other electronic devices may be used during class without the permission on the instructor.
