Course Description

ED 5319 School Law is a study of the general laws concerning education, with an emphasis on Texas law. The course is designed to provide students with an in-depth understanding of cases and decisions affecting the current operation of educational institutions and train students to analyze real-world situations in schools and apply legal and ethical decisions to those situations and crises.

Performance Standards, Goals, and Learning Objectives

Course Performance Standards, Knowledge and Skills: Education, as a major function of state government, is regulated by a broad range of intertwined and frequently confusing legal documents. Administrators must be prepared to handle the constantly changing political environment of public education. The aim of this course is for the new administrator to become familiar with the four sources of laws relevant to education: constitutional law, statutory law, administrative law, and judicial law so that he/she can readily find and interpret the pertinent article when the need arises. To accomplish this, the student must become familiar with the historically relevant cases that have shaped public education.

Secondary Goals: School administrators must be professional communicators. A secondary but important goal of this course is to learn to communicate at a professional level with focus on presentations, formal discussions, and case studies. School administrators must provide professional performance assessments to employees and frequently receive unprofessional criticism from the public. Students will receive practice in giving and receiving performance assessments in a professional manner.

Program & Student Learning Objectives: The graduating student will demonstrate that he/she:

1. Knows how to act with integrity, fairness and in an ethical and legal manner (Domain 1 - School Community Leadership Competency 003);
2. Knows how to implement a staff evaluation and development system to improve the performance of all staff members, select and implement 'appropriate models for supervision and staff development, and apply the legal requirements for personnel management (Domain 2 - Instructional Leadership Competency 006);
3. Knows how to apply principles of leadership and management to the campus physical plant and support systems to insure a safe and effective learning environment (Domain 3 - Administrative Leadership Competency 009).
4. Knows how to apply to current school issues those Federal and State laws (including constitutional provisions, agency regulations, and court decisions) that directly and indirectly affect public education.
5. Knows how to ensure compliance with student and employee rights and responsibilities, statutory and assumed authority of school boards, relations with employee organizations, civil liability of school personnel, due process, and federal disability laws.

6. Knows how to make presentations, participate in discussions, give and receive criticism, and prepare written documents in a professional manner.

ED 5319 will address the following Marketable Skill:

- Students will be able to exercise administrative leadership to ensure resource management, policy implementation, and coordination of organizational operations in an ethical manner.
