Student Learning Objectives: At the conclusion of this course, students will be able to do the following:

Data Driven Instruction

- Components of quality assessments, including alignment and rigor (K)

- A conceptual adjustment involves the need to know each student’s mastery, or lack of, after every lesson and concept has been taught (M)
- Leaders should push teachers to develop a better understanding of why students are not performing well on content that has been taught and what action is needed(M)
- The use of rubrics containing a progressive continuum of performance expectations that better supports teacher reflection and development is best practice (M)
- Data driven instruction can serve student achievement in multiple formats – it should look different to support different ages and ability groups (M)
- To effectively address student errors and misunderstandings, students should receive feedback and practice until they demonstrate mastery of the skill entirely on their own (M)

Observation and Feedback

TExES Standards: Chapter 149. Commissioner’s Rules Concerning Educator Standards, Subchapter BB. Administrator Standards

§149.2001. Principal Standards.

(a) Purpose. The standards, indicators, knowledge, and skills identified in this section shall be used to align with the training, appraisal, and professional development of principals.

(b) Standards.

(1) Standard 1--Instructional Leadership. The principal is responsible for ensuring every student receives high-quality instruction.

(A) Knowledge and skills.

(i) Effective instructional leaders:

- (I) prioritize instruction and student achievement by developing and sharing a clear definition of high-quality instruction based on best practices from research;
- (II) implement a rigorous curriculum aligned with state standards;
- (III) analyze the curriculum to ensure that teachers align content across grades and that curricular scopes and sequences meet the particular needs of their diverse student populations;
- (IV) model instructional strategies and set expectations for the content, rigor, and structure of lessons and unit plans; and

(V) routinely monitor and improve instruction by visiting classrooms, giving formative feedback to teachers, and attending grade or team meetings.

(ii) In schools led by effective instructional leaders, data are used to determine instructional decisions and monitor progress. Principals implement common interim assessment cycles to track classroom trends and determine appropriate interventions. Staff have the capacity to use data to drive effective instructional practices and interventions. The principal's focus on instruction results in a school filled with effective teachers who can describe, plan, and implement strong instruction and classrooms filled with students actively engaged in cognitively challenging and differentiated activities.

(B) Indicators.

(i) Rigorous and aligned curriculum and assessment. The principal implements rigorous curricula and assessments aligned with state standards, including college and career readiness standards.

(ii) Effective instructional practices. The principal develops high-quality instructional practices among teachers that improve student learning.

(iii) Data-driven instruction and interventions. The principal monitors multiple forms of student data to inform instructional and intervention decisions and to close the achievement gap.

(V) facilitate professional learning communities to review data and support development;

(VI) create opportunities for effective teachers and staff to take on a variety of leadership roles and delegate responsibilities to staff and administrators on the leadership team; and

(VII) use data from multiple points of the year to complete accurate evaluations of all staff, using evidence from regular observations, student data, and other sources to evaluate the effectiveness of teachers and staff.

(ii) In schools with effective leaders of human capital, staff understand how they are being evaluated and what the expectations are for their performance. Staff can identify areas of strength and have opportunities to practice and receive feedback on growth areas from the leadership team and peers. Staff evaluation data show variation based on effectiveness but also show improvement across years as development and retention efforts take effect. Across the school, staff support each other's development through regular opportunities for collaboration, and effective staff have access to a variety of leadership roles in the school.

(B) Indicators.

(ii) In schools with effective culture leaders, staff believe in and are inspired by the school vision and have high expectations for all students. Staff take responsibility for communicating the vision in their classrooms and for implementing behavioral expectations throughout the building, not only in their own classrooms. Teachers regularly communicate with the families of their students to provide updates on progress and actively work with families to support learning at home. Members of the broader community regularly engage with the school community.

(B) Indicators.

Staff understand the goals and expectations for students, have clear strategies for meeting those goals, and have the capacity to track progress. Members of the staff collaborate with the principal to develop the school calendar. Teacher teams and administrator teams meet regularly to review and improve instructional strategies and analyze student data. Throughout the year, all staff participate in formal development opportunities that build the capacity to identify and implement strategies aligned to the school's improvement goals.

Learning Environment & Grading Policy

Successful completion of an online course requires dedication and constant effort. Do not fall behind in your work! Begin your assignments as soon as possible and get at least one module ahead. This will help you avoid

the penalty for late work because there are always unforeseen events that arise. Submit professional quality work. Have someone proofread your submittals and always use the grammar and spell check functions on your computer before submission.

If you are not sure what plagiarism is, please read APA pp. 15-16 and 170, or ask during office hours. But remember, the ultimate responsibility is your own. When in doubt, err on the side of caution.

Grading Policy:

1. No late assignment will be accepted after its due date without prior instructor consent.
2. Late assignments will lose 20% of possible points for each day it is late.
3. All citations should be formatted using the American Psychological Association (APA) manual. Papers with APA citation errors will receive a reduction in points or no credit.
4. Extra credit points are not available.
5. There are no I's (incompletes) for this class.
6. After 11:45 pm on the date for any assignment due is considered late and will result in a lowered grade for that assignment.
7. There are no optional assignments in this course. All assignments must be completed in order to pass this class. Even if an assignment is so late that it will receive a "0", the student must turn in the assignment in order to pass the course (regardless of number of points accrued in the course.)
8. Students who fail to participate in Discussion Board or complete any assignment may not pass this course.

Any student who, because of a disability, may require special arrangements in order to meet the course requirements should contact the instructor as soon as possible to make necessary arrangements. Students must present appropriate verification from Accessibility Services during the instructor's office hours. Please note that instructors are not allowed to provide classroom accommodation to a student until appropriate verification from Accessibility Services has been provided.
