Elementary Statistical Methods

Time: MWF 10 – 10:50
Room: ACR 204

Instructor: Eric Funasaki
Offices: ACR 109C (MWF mornings) or BAB 203 (TR mornings and MTWRF afternoons)
Phone: 432–837–8109
email: eric.funasaki@sulross.edu

Office hours
MWF 9 – 9:50, MWF 11 – 11:50, or by appointment.

Textbook

Calculator
TI–83 or TI–84 is required.

Course Description
Collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals, and hypothesis testing. Use of appropriate technology is recommended.

Course Objectives
The student will be able to:
1. Gather, organize, calculate, and present data;
2. Work with probability distributions, both discrete and continuous, and recognize the proper distribution to use for different applications;
3. Estimate population proportions, means, variances, and standard deviations; and
4. Use hypothesis testing on population proportions, means, and standard deviations.

Course Assessment
Your grade will be based on the following components:
10% In–class problems and participation
24% Homework assignments and quizzes
66% Exams

The grading scale will be:
90 – 100 A   80 – 89 B   70 – 79 C   60 – 69 D   0 – 59 F
## Course Schedule (tentative)

### Week 1
1/11 M 1.6 Introduction to Statistical Thinking, 1.7 Descriptive vs. Inferential Statistics  
1/13 W 2.2 Data Classification  
1/15 F 3.1 Frequency Distributions

### Week 2
1/18 M MLK Day (no class)  
1/20 W 3.2 Displaying Qualitative Data Graphically  
1/22 F 3.3 Constructing Frequency Distributions for Quantitative Data

### Week 3
1/25 M 3.4 Histograms and Other Graphical Displays of Quantitative Data  
1/27 W 4.1 Measures of Location  
1/29 F 4.2 Measures of Dispersion

### Week 4
2/1 M 4.3 Measures of Relative Position, Box Plots, and Outliers  
2/3 W 4.3 Measures of Relative Position, Box Plots, and Outliers  
2/5 F Review for Exam 1

### Week 5
2/8 M Exam 1  
2/10 W 7.1 Types of Random Variables, 7.2 Discrete Random Variables  
2/12 F 7.2 Discrete Random Variables

### Week 6
2/15 M 7.2 Discrete Random Variables, 7.3 The Discrete Uniform Distribution  
2/17 W 7.4 The Binomial Distribution  
2/19 F 7.4 The Binomial Distribution

### Week 7
2/22 M 7.4 The Binomial Distribution  
2/24 W 8.1 The Uniform Distribution, 8.2 The Normal Distribution  
2/26 F 8.2 The Normal Distribution, 8.3 The Standard Normal Distribution

### Week 8
3/1 M 8.3 The Standard Normal Distribution  
3/3 W 8.4 Applications of the Normal Distribution  
3/5 F 8.4 Applications of the Normal Distribution

### Week 9
3/8 M Spring Break (no class)  
3/10 W Spring Break (no class)  
3/12 F Spring Break (no class)

### Week 10
3/15 M Review for Exam 2  
3/17 W Exam 2  
3/19 F 9.1 Random Samples, 10.3 Estimating the Population Proportion
Week 11
3/22  M  10.3 Estimating the Population Proportion
3/24  W  10.3 Estimating the Population Proportion
3/26  F  10.2 Interval Estimation of the Population Mean

Week 12
3/29  M  10.2 Interval Estimation of the Population Mean
3/31  W  10.4 Estimating the Population Standard Deviation or Variance
   4/2  F  Good Friday (no class)

Week 13
4/ 5  M  10.4 Estimating the Population Standard Deviation or Variance
4/ 7  W  11.1 Introduction to Hypothesis Testing
4/ 9  F  11.1 Introduction to Hypothesis Testing

Week 14
4/12  M  11.4 Testing a Hypothesis about a Population Proportion
4/14  W  11.4 Testing a Hypothesis about a Population Proportion
4/16  F  11.2 Testing a Hypothesis about a Population Mean

Week 15
4/19  M  11.2 Testing a Hypothesis about a Population Mean
4/21  W  11.5 Testing a Hypothesis about a Population Standard Deviation or Variance
4/23  F  11.5 Testing a Hypothesis about a Population Standard Deviation or Variance

Week 16
4/26  M  Review for Exam 3
4/28  W  Review for Exam 3
   4/30  F  Exam 3 (10:15 am – 12:15 pm)

Attendance Policy

Role will be taken. You are responsible for all material covered in class as well as any assignments and announcements that are made. If you miss an assignment, exam, or quiz you will receive a grade of zero unless I have been notified in advance.

Sul Ross State University policy allows an instructor to drop a student with a grade of W or F when 9 hours of class are missed. For this course that is when you miss 9 classes.

Cheating

Cheating will not be tolerated. Anyone caught cheating will receive a grade of zero on that assignment. This includes homework assignments where the student who copied another student’s work and the student who allowed their work to be copied will both receive a grade of zero.

Cell Phones and Other Electronic Devices

Your cell phone must be off while you are in class. You may not read or send text messages while class is in session. If there is an unusual situation where you simply must be able to read and send a message without delay, place your phone in vibrate
mode and leave the room before reading and responding. No other electronic devices may be used during class without the permission on the instructor.

**ADA Statement**

Sul Ross State University is committed to equal access in compliance with the Americans with Disabilities Act of 1973. Students with qualifying disabilities who seek accommodations must initiate a request for a meeting for accessibility services. Students seeking accessibility services must contact Rebecca Greathouse Wren, M.Ed., LPC–S, Counseling and Accessibility Services, telephone: 432–837–8203, or email: rebecca.wren@sulross.edu.

For more information see: https://www.sulross.edu/page/1384/accessibility-services.

**Masks**

Face coverings are required indoors and outdoors on SRSU campuses unless you are in a private space or engaged in an activity for which wearing a face covering is impractical. That is, a properly worn mask is required during class.
