Course description: MUS 1181 is an introduction to piano for music students (majors and non- majors) that have never played piano, played very little, or play by ear and wish to learn to read music on the instrument. This course goes hand in hand with the concepts taught in music theory since the keyboard is the best way to visualize these concepts.

The instructor and students will work in the following areas:

Technique- finger and hand development, independence and coordination.

Reading- learning traditional pitch and rhythm notation.

Theory- intervals, scales, keys and chords.

Harmonization of melodies- putting chords to already- existing melodies.

Transposition- moving a composition from one key to another.

Improvisation

Ensemble playing

Accompaniment styles

Harmonize a simple melody by analysis of its scale steps.

Student Responsibilities:

1. Students are expected to participate in class discussions and play at the piano both individually and as a group. Participation in class also includes not noodling on the keyboard while the instructor is lecturing or demonstrating.
2. Students are expected to practice assigned pieces of music between class meetings- this is part of your grade and is also part of class participation.
3. Turn in written assignments when they are due and please do them in pencil so you can make clean corrections. Points will be taken off for assignments turned in late and assignments done in pen.
4. Practice outside of class is **absolutely essential** for acquiring skill on a musical instrument. The companion CD that goes with the text can be used as a practice aid outside of class (see the Foreword of the text). Piano practice rooms are available; see instructor for details.
