

LECTURE SYLLABUS
BIOL 4409 Mammalogy Spring 2022

Instructor: Dr. Thornton R. Larson
Lectures: MW 1230-145 WSB 107
Laboratory: M 3-450 (Alpine campus only)

Office Hours: MWF 930-1030; T 2-4
Office Phone:
Email: Thornton.Larson@sulross.edu
Office: WSB 221

Course Description: Students study the biology of mammals with an emphasis on evolution, population structure, reproduction, and physiological adaptation. This course will focus on diversity of mammals with an emphasis on mammals of Texas specifically the Trans Pecos region since that is where we are located. The laboratory component of this course will make use of preserved museum specimens, dissections, and possibly field trips to illustrate the morphology, taxonomy, natural history, reproduction, and other aspects of mammal biology. A separate syllabus will be provided for laboratory as labs will differ slightly between campuses. Blackboard will be used as the primary communication hub as well as the repository for materials associated with this course.

Recommended Books/Checklists: NONE REQUIRED

1. *Mammalogy: Adaptation, Diversity, Ecology*, Feldhamer et al.

This text is a large and comprehensive view of Mammalogy. We will not have the time in the course to cover every chapter, but purchasing this text will greatly assist you with lecture materials. The large part of lectures and lecture exams will be based on this text. While I will be utilizing the 5th edition, the 4th edition would be more than adequate if you desire the reference.

2. *A Field Guide to Mammals* (Peterson Field Guide). Boston: Houghton-Mifflin (**Highly recommended!**)

Peterson's guides are typically THE field guide to use as a budding naturalist/mammalogist.

3. *Field guide to the Mammals of the Trans Pecos* (Shmidley)
4. *Field guide to Mammals of Texas* (Shmidley)

Exams and Grading:

3 lecture exams (100 pts ea)	300
2 Lab Practicals (100 pts ea)	200
Field Notebook (50 pts)	50
Lab Presentation (50 pts)	50
5 Lecture Assignments (10 pts each)	50
Total Credit	650 points (350 for lecture)
A 90 – 100% B 80 – 89% C 70 – 79% D 60 – 69% F <60%	

Attendance: Mandatory. No roll will be called, but this course is sized to where I will recognize when someone is not present. **I am allowed to drop you from my class** if you miss **more than six times** (that accounts for 2 full weeks of lecture). I do not wish to hear excuses for missing class, and do not want to hear about it every time you are gone. Absences are excused only if you have a documented, university approved excuse (hospitalization, funeral, etc.) **DO NOT MISS EXAMS** unless you have a documented, university-approved excuse. If you do not inform me of your approved absence before the exam it will be a **ZERO**. For labs, **DO NOT MISS LAB PRACTICALS!!!** It is impossible to re-run them as they are setup with many lab components that take up space that is not guaranteed.

Course Objectives: At the end of the semester, students will:

1. Sight-recognize the mammals of Texas and know the habitat and range for which they would be encountered.
2. Know the families of North American mammals.
3. Know the orders of mammals.
4. Be able to use morphological features to identify and classify living and preserved mammals.
5. Understand and compare different reproductive strategies of mammals.
6. Use a standard field guide to identify mammals.
7. Utilize databases to find primary literature to learn more about a mammalian family.
8. Keep journal records of field sightings and behaviors of mammals.

Student Learning Outcomes (SLOs) for Biology:

1. Demonstrate an understanding of evolution by natural selection.
2. Demonstrate an integration of environmental awareness into everyday modern life.
3. Understanding how to incorporate molecular biology into the study of the whole organism.
4. Demonstrate utilization of various field techniques toward addressing scientific questions in the discipline.
5. Conduct basic laboratory experiments utilizing standard observational strategies.

Marketable Skills

- 1) Ability to organize, analyze, and interpret data.
- 2) Proficiency in using presentation software.
- 3) Experience in managing time and meeting deadlines.
- 4) Ability to speak effectively and write concisely about scientific topics.
- 5) Experience in the development of professional email correspondence.

SRSU Library Services

The Sul Ross Library offers FREE resources and services to the entire SRSU community. Access and borrow books, articles, and more by visiting the library's website, library.sulross.edu. Off-

campus access requires your LoboID and password. Check out materials using your photo ID. Librarians are a tremendous resource for your coursework and can be reached in person, by email (srsulibrary@sulross.edu), or phone (432-837-8123).

SRSU Disability Services:

ADA (Americans with Disabilities Act) Sul Ross State University (SRSU) is committed to equal access in compliance with Americans with Disabilities Act of 1973. It is SRSU policy to provide reasonable accommodations to students with documented disabilities. It is the student's responsibility to initiate a request each semester for each class. Students seeking accessibility/accommodations services must contact Rebecca Greathouse Wren, LPC-S, SRSU's Accessibility Services Coordinator at 432-837-8203 (please leave a message and we'll get back to you as soon as we can during working hours), or email rebecca.wren@sulross.edu. Our office is located on the first floor of Ferguson Hall (Suite 112), and our mailing address is P.O. Box C-122, Sul Ross State University, Alpine, Texas, 79832

ACADEMIC HONESTY: The University expects all students to engage in all academic pursuits in a manner that is beyond reproach and to maintain complete honesty and integrity in the academic experiences both in and out of their classroom. The University may initiate disciplinary proceeding against a student accused of any form of academic dishonesty, including but not limited to, cheating on an examination or other academic work, plagiarism, collusion, and the abuse of resource materials. "Cheating" includes 1. Copying from another student's test paper, laboratory report, other report, or computer files, data, listings, and/or programs, or allowing another student to copy from same. 2. Using, during a test, materials not authorized by the person giving the test. 3. Collaborating, without authorization, using, buying, selling, stealing, transporting, soliciting, copying, or possessing, in whole or in part, the contents of a non-administered test. 5. Substituting for another student; permitting any other person, or otherwise assisting any other person to substitute for oneself or for another student in the taking of an examination or test or the preparation of academic work to be submitted for academic credit. 6. Bribing another person to obtain a non-administered test or information about a non-administered test. 7. Purchasing, or otherwise acquiring and submitting as one's own work any research paper or other writing assignment prepared by an individual or firm. This section does not apply to the typing of a rough and/or final version of an assignment by a professional typist. 8. "Plagiarism" means the appropriation and the unacknowledged incorporation of another's work or idea in one's own written work offered for credit. 9. "Collusion" means the unauthorized collaboration with another person in preparing written work offered for credit. 10. "Abuse of resource materials" means the mutilation, destruction, concealment, theft or alteration of materials provided to assist students in the mastery of course materials. 11. "Academic work" means the preparation of an essay dissertation, thesis, report, problem, assignment, or other project that the student submits as a course requirement or for a grade. 12. "Falsification of Data" means the representation, claim, or use of research, data, statistics, records, files, results, or information that is falsified, fabricated, fraudulently altered, or otherwise misappropriated or misrepresented. All academic dishonesty cases may be first considered and reviewed by the

faculty member. If the faculty member believes that an academic penalty is necessary, he/she may assign a penalty but must notify the student of his/her right to appeal to the department chair, the dean and eventually, to the Provost and Vice President for Academic and Student Affairs before imposition of the penalty. At each step in the process, the student shall be entitled to written notice of the offence and/or of the administrative decision, an opportunity to respond, and an impartial disposition as to the merits of his/her case. The decision of the Provost and Vice President for Academic and Student Affairs shall be final.

Classroom Climate of Respect

Importantly, this class will foster free expression, critical investigation, and the open discussion of ideas. This means that all of us must help create and sustain an atmosphere of tolerance, civility, and respect for the viewpoints of others. Similarly, we must all learn how to probe, oppose and disagree without resorting to tactics of intimidation, harassment, or personal attack. No one is entitled to harass, belittle, or discriminate against another on the basis of race, religion, ethnicity, age, gender, national origin, or sexual preference. Still we will not be silenced by the difficulty of fruitfully discussing politically sensitive issues.

Diversity Statement

"I aim to create a learning environment for my students that supports a diversity of thoughts, perspectives and experiences, and honors your identities (including race, gender, class, sexuality, religion, ability, socioeconomic class, age, nationality, etc.). I also understand that the crisis of COVID, economic disparity, and health concerns, or even unexpected life events could impact the conditions necessary for you to succeed. My commitment is to be there for you and help you meet the learning objectives of this course. I do this to demonstrate my commitment to you and to the mission of Sul Ross State University to create an inclusive environment and care for the whole student as part of the Sul Ross Familia. If you feel like your performance in the class is being impacted by your experiences outside of class, please don't hesitate to come and talk with me. I want to be a resource for you."

For Remote/Online Courses Only - SRSU Distance Education Statement.

Students enrolled in distance education courses have equal access to the university's academic support services, such as library resources, online databases, and instructional technology support. For more information about accessing these resources, visit the SRSU website. Students should correspond using Sul Ross email accounts and submit online assignments through Blackboard, which requires secure login. Students enrolled in distance education courses at Sul Ross are expected to adhere to all policies pertaining to academic honesty and appropriate student conduct, as described in the student handbook. Students in web-based courses must maintain appropriate equipment and software, according to the needs and requirements of the course, as outlined on the SRSU website. Directions for filing a student complaint are located in the student handbook.

Tentative Lecture Schedule

Date	Topic
1/10	Syllabus and Intro to Mammalogy (ch.1)
1/12	Mammal diversification (ch. 3)
1/17	Martin Luther King Jr. holiday (no class)
1/19	Evolution and dental characteristics (ch. 4)
1/24	Structure and Function: Anatomy (ch. 6)
1/26	Structure and Function: Modes of Feeding (ch. 7)
1/31	Structure and Function: Environmental Adaptations (ch.8)
2/2	Exam 1
2/7	Reproduction (ch.9)
2/9	Orders: Monotremata and Marsupials (ch. 10)
2/14	Shrews, Tree shrews, colugos (ch.11, 14)
2/16	Order: Chiroptera (ch. 21)
2/21	Orders: Rodentia and Lagomorpha (ch. 16)
2/23	Orders: Proboscidea, Hyracoidea, and Sirenia (ch. 12)
2/28	Order: Eulipotyphla (ch. 17)
3/2	Infraorder: Cetacea (ch. 20)
3/7	SPRING BREAK
3/9	
3/11	
3/14	
3/14	Review before Exam 2
3/16	Exam 2
3/21	Order Primates (ch. 15)
3/23	Human Evolution
3/28	Orders: Pilosa and Cingulata (ch. 13)
3/30	Orders: Carnivora and Pholidota (ch. 18)
4/4	Orders: Perissodactyla and Cerartiodactyla (ch. 19)
4/6	Sexual Selection, Parental Care, Mating Systems (ch. 22)
4/11	Social Behavior (ch. 23)
4/13	Territory and Ranges (ch. 24)
4/18	Populations and Communities (ch. 25, 26)

4/20	Diseases and Parasites (ch. 27)
4/25	Conservation (ch. 28)
4/27	Methods for studying (ch. 2)
5/3	Exam 3(1230PM–230PM)
