Course Description

Social media (SM) is changing how business is done around the world in almost every industry and has captured the attention of companies both large and small. As more and more people take to their computers and mobile devices to connect with friends, post their opinions, and engage in conversations, it's vital for business leaders to understand this phenomenon and how to prepare their organizations to thrive when customers wield more power and influence over businesses than ever before. This course is designed to help you understand the value of social media so that you can begin to appreciate its true value to consumers, to managers, and to other stakeholders. It is intended to equip you with the relevant knowledge, perspectives, and practical skills required to develop marketing strategies that leverage the opportunities inherent in social media and consumer-to-consumer social interactions for achieving your overall business or personal goals.

***Note:** This course is NOT about specific online social media platforms that you may know well from a user's perspective (e.g., Facebook, Twitter, Instagram, Snapchat). While these platforms are important and will be discussed, it is important to know in advance that this course is not solely about these platforms. The intention is to broaden your perspective, train you to approach SM from a strategist's standpoint, and not narrow your thinking by focusing on just a few platforms that happen to be important now.*

The emphasis of this course is instead on understanding audiences' social interactions, examining the various social media channels available to marketers, learning how to build social media strategies, and practicing how to track their effectiveness.

Distance Education Non-Participation Statement

Policies in effect for on-campus, traditional classroom instruction courses also apply to students enrolled in distance education courses, including Web-based and ITV courses. The University allows a maximum of 20% absences in a course before an instructor may drop a student for excessive absences. In Web courses, this policy is interpreted as not participating for more than 3 weeks in a long semester, 1 week in a summer session, or 3 days in the midwinter session.

Any student dropped for non-participation will receive an “F” in the course dropped.

Inactivity may include the following:

- not logging on to the course not submitting assignments
- not participating in scheduled activities
- not communicating with the instructor by phone or email, and/or
- not following the instructor's participation guidelines stated in the syllabus

Any student who has not logged on to this course or submitted any assignments by June 6, 2022 will be considered to have exceeded the University’s policy on “excessive absences” and may be automatically dropped from the course. Blackboard statistics track the logins made and document the sections of the course accessed. These statistics will be used by your professor as a factor in documenting your participation in the course.

Your professor will use Blackboard statistics to document logins to the course and assignments accessed.

Diversity Statement

"I aim to create a learning environment for my students that supports a diversity of thoughts, perspectives and experiences, and honors your identities (including race, gender, class, sexuality, religion, ability, socioeconomic class, age, nationality, etc.). I also understand that the crisis of COVID, economic disparity, and health concerns, or even unexpected life events could impact the conditions necessary for you to succeed. I do this to demonstrate my commitment to you and to the mission of Sul Ross State University to create an inclusive environment and care for the whole student as part of the Sul Ross Familia. Classroom Climate of Respect

Importantly, this class will foster free expression, critical investigation, and the open discussion of ideas. This means that all of us must help create and sustain an atmosphere of tolerance, civility, and respect for the viewpoints of others. Similarly, we must all learn how to probe, oppose, and disagree without resorting to tactics of intimidation, harassment, or personal attack. No one is entitled to harass, belittle, or discriminate against another on the basis of race, religion, ethnicity, age, gender, national origin, or sexual preference. Still, we will not be silenced by the difficulty of fruitfully discussing politically sensitive issues.
