ACADEMIC INTEGRITY:

Students in this class are required to demonstrate scholarly behavior and academic honesty in the use of intellectual property. A scholar is expected to be timely, prepared, and focused. Meaningful, respectful, and pertinent online participation is also expected.

Examples of academic dishonesty include but are not limited to: submitting work as original that was used in whole or part for another course and/or professor; turning in another person's work as one's own; copying from professional works or internet sites without citation.

SAFE ASSIGN:

The Safe Assignment Tool is an advanced plagiarism prevention system deeply integrated with the Blackboard Learning Management System. SafeAssignment compares student papers submitted to Blackboard against an enormous wide range of sources and provides instructors with detailed Originality Reports. Because of SafeAssignment's flexibility, this product is an effective plagiarism prevention system that helps instructors to raise student awareness about plagiarism and to educate students about the ways to avoid plagiarism. You can check your similarity report and make corrections if needed. With your similarity report, you will note highlighted areas that have similarity noted between your paper and another source. You will click on the tab within the colored square to see the percentage of the similarity. Percentages above 10% must be corrected. It does not matter if the source that is being noted for similarity is

not the same source that you used. The system is telling you what you have written is too similar to another source and you need to make corrections. You may need to change up some of the wording or order of information to make it your information. More than three or four words in a row that are identical to the originating author can be detected. You can submit your paper as many times as you would like. This system is designed to assist students with increasing awareness of plagiarism. Typically, plagiarism is an accidental occurrence and occurs when students do not realize their writing is overly similar to another source.

II. Video Activity/Case Studies/Exercises in Modules

NOTE: LATE ASSIGNMENTS WILL NOT BE ACCEPTED. All assignments are submitted on Blackboard only; those assignments submitted after the deadlines on the attached Due Dates Schedule will receive no credit.

III. Discussion Board Assessments:

There are four Assessment Discussion Board assignments and once Code of Ethics discussion. They are the MBTI-type assessment, the Keirsey Temperament Sorter, the SIGI-3, and the Texas Career Check. You may find these on the following forums in the Modules. You will take these four online assessments and report your results/impressions on the appropriate discussion board forum. You may choose to provide your assessment results in written form or in a video submission. Follow the instructions on each of the five forums. Note the due dates for each of these assignments in the Syllabus.

Students, all of you will complete the four following online assessments:

<http://www.humanmetrics.com/cgi-win/jtypes2.asp> This is an online text **based on** the MBTI (Myers-Briggs/Jung Typology). Take the test, then click on "Score It" at the bottom of the questions. On the screen will be your four letter "type," for example, ENFJ. Select the "Type" description by J. Butt" and print out your description. You will use this for the Discussion Board MBTI Forum.

<http://www.keirsey.com/> Take the free Sorter (click on the colorful button at the top right of your screen--it reads "Click to Take Sorter,") then select the free Temperament Report. Make sure that you click on the "The Four Temperaments" link on the top right menu bar underneath the "Take the Sorter" logo to read in detail about the four temperaments. What does the sorter suggest about you? Be sure to record your results from the Free Sorter, so that you can respond on the Keirsey Temperament Sorter Discussion Board Forum! Post a thread recording your results from the Free Sorter on this forum and state how those results are connected to career.

<http://www.sigi3.org/login.asp?SQ=1363&SK=5919503210> Type this URL into your browser. This will take you to the Sul Ross career resources page, and in the middle of the listings, you will see **SIGI 3**. You will be taking the SIGI 3 assessment. Click on the SIGI 3. **You will need to register.** Use your sulross email username and ID (the same way your access your Sul Ross email) to login to the SIGI 3. You will see a Welcome Menu and some Tips for using the SIGI. Then select "Continue" at the bottom, then "Use an Assessment Tool." Take the "Values," "Interests," "Personality Type," and "Skills" surveys. This will take some time, so be sure to block out some time to work on this. You will then search the job database using your results. Play some of the Videos for jobs, see the job comparison grids, play with the deciding square, etc. until you feel comfortable with these SIGI resources. You can build a portfolio in SIGI, and re-enter to continue working with these resources. And you might learn something about yourself in regard to career in addition to finding some good resources you might incorporate into your career program!

<https://texascareercheck.com/home/explorecareers>. This is a good tool to use with high school students. You will explore occupations or college options. It includes an interest assessment, a high school graduation plan, regional labor market information and hot jobs. You can call 1-800-822-7526 to order a free counselor packet containing samples of their career development products: tabloids, books, brochures, bookmarks, pocket resume and posters. Or you can visit the LCMI webpage at www.lmic.state.tx.us. After you have taken the assessment, post your results in Discussion Board.

WRITING EXPECTATIONS - APA Manual 7th ed.

All written assignments including those in discussion board must follow the writing style found in the most current edition of the American Psychological Association Publication Manual (APA Manual). See *American Psychological Association Publication Manual* (7th ed.) <http://www.apastyle.org/stylehelper/>

When you utilize excerpts of materials from existing career programs, from those websites/resources provided you, or from those you find through research, you must cite the source in the body of your paper and include a reference entry at the conclusion of your document. See Chapter 8, beginning on page 253.

Edit for English usage, grammar, and style (See Chapters 4 and 6 of the APA Manual beginning with pages 111 and 153). Papers with multiple errors may not be accepted or will receive a reduction in grade.

An emphasis in this course is writing in a manner to demonstrate your professionalism and scholarship.

Site Visit Requirement

Locate a military installation, school, college, or university career counseling center or a career counseling component in an agency program (ie., Texas Workforce Commission) to visit. (Most junior colleges and universities have a center devoted exclusively to career counseling. For example, Sul Ross has the Career Services & Testing Office.) Make arrangements to interview the site personnel at your chosen facility regarding their program services and activities. Your focus must be **career**, rather than general counseling! If you visit with a school counselor, you must devote your attention to the career counseling services he/she provides. The following questions should guide your interviewing and observations as you complete your site visit. Write your report in complete sentences taking note to follow APA format. Take notes to utilize in your report. *Be certain to collect data for each of the following questions for full credit.*

- 1. Note the name and title of the person interviewed and the name and location of the site; the type of agency or level of school; and the type and degree of training in the field of counseling and career counseling that the personnel in this program possess.*
- 2. Determine the average number of clients served each month or semester, the prevalent ethnicity of the clientele, the number of service providers, and the predominant ethnicity of the service providers. Do you see any patterns emerge with regard to numbers or to ethnicity?*
- 3. Describe an outline of the career counseling program as it is conducted at this site. What procedures, services, and activities are provided? What is the time line or schedule for provision of the services and activities?*
- 4. What instruments/assessments are used at this site? What is the rationale for the selection of these particular instruments? How are the results of the instruments used with the clientele? What computer programs in career development are used on this*

site? How competent are the personnel in utilizing these programs, according to their self-report?

5. How do the personnel at this site evaluate the effectiveness of their career counseling? (This question may make them pause; many career counselors may not concern themselves with program or counselor evaluation.) How do the service providers regard their work? Do they have a solid understanding of career development and the need for it? Do they like working with their clientele?

6. What is your overall assessment of the work done at this site?

After posting your site visit report on this forum, you must respond to 1 other student's report. Briefly share your impressions or insights gained through their report.

Note the due date on your syllabus. You must email Professor Hayes your selected site for approval **before** you visit the site. (See syllabus for the deadline to email your choice.) After you receive approval, follow the format below. **Please type each question and then your response (do not do this in an attached document. Copy and paste the questions in your thread). Follow APA Style.**

One Final Note* Sites for visits should be providing direct client/student services. They cannot be providing services to those who provide services, nor should they be a place to pick up brochures or information. Universities and Colleges are a good choices, as well as, the local Texas Work Force Commission. If you have a military base nearby, they have centers to help those who are separating from the military and are looking for civilian careers/jobs.
