

## GEOL 1303 – Physical Geology

Summer - 2022

**Section:** 001

**Lecture Times:** M-F: 1-2:40 pm

**Lecture Room:** WSB 201

**Instructor:** Dr. Tom Shiller

**Office:** WSB 319

**Office Hours:** M: 3-5:00 pm, W: 3-4:00 pm

**e-mail:** Thomas.shiller@sulross.edu

### **Materials Required:**

Text: Earth Revealed by Carlson, Plummer and Hammersley, 9th edition. Earlier editions 6th or later will suffice.

Lab: Laboratory Manual for Physical Geology Laboratory Geology 1103 by Measures and Mattison.

### **Course Purpose:**

Physical geology is defined as a division of geology concerned with Earth materials, changes of the surface and interior of Earth, and the forces that cause those changes. This course serves as a comprehensive overview of these topics of physical geology, as well as an introduction to the science of geology in general.

### **General Objectives: Each student will develop:**

1. Knowledge about the application of the scientific method as a tool for understanding Earth's processes
2. Knowledge about the composition and formation of common rocks and minerals
3. An understanding of the internal and external processes that create Earth's major landforms such as plate tectonics and weathering
4. Ability to identify and interpret structural features in Earth's crust such as faults and folds, and knowledge of the processes responsible for creating such structures.
5. A general knowledge of Earth history and the methods and techniques used to date rocks and geologic events

### **Student Learning Objectives: Each student will demonstrate the ability to:**

1. Identify and interpret common rocks and minerals
2. Explain different weathering processes and the formation of sedimentary rocks
3. Determine the relative ages of rocks and geologic structures using geologic dating principles
4. Identify and evaluate structural features in Earth's crust such as faults and folds
5. Demonstrate the mechanisms and processes that create earthquakes, and how the location and strength of earthquakes are determined
6. Explain and evaluate the relationship between plate tectonics and the formation of mountains, igneous bodies and earthquake zones

### **Homework:**

There will be three take-home assignments given during the semester requiring independent research, critical thinking, and technical writing. Assignments will be given **during class** and will not be available on Blackboard. A due date will be given on the day homework is assigned. Late projects will be accepted at 50% of your earned point value by 5 pm. on the due date (including immediately after class); 25% value by the end of the following day, and 0% after that. Each homework assignment is worth 12% of your total grade. If you are planning on missing class for a Sul Ross sanctioned event or other valid reason, homework must be turned in early (prior to the absence).

### **Pop Quizzes:**

Four unannounced quizzes will be given during the semester at the beginning of class (so don't be late for class!). These quizzes will cover material from the previous one or two lectures, plus the reading assignment. You may use your own lecture notes that are on paper. (If you take notes on a laptop you can sit in the front of the class where the instructor can see your screen as you use your digital notes.) No quizzes can be made up.

### **Exams:**

There will be four total exams covering sections discussed following the previous exam. These exams will comprise primarily short answer and essay questions. You may **not** use your notes for exams. Special arrangements will need to be made for make-up exams. Exams will be curved at the professor's discretion.

## **Grading System:**

### **Points:**

4 Exams = 60% (15% each)

4 Pop Quizzes = 4% (1% each)

3 Homeworks = 36% (12% each)

Your accumulated grades will be recorded on Blackboard in the Grade Center.

**Letter Grading:** Final course grade will be based on a percentage of the total points as follows:

90.00-100% = A

80.00-89.90% = B

70.00-79.90% = C

60.00-69.90% = D

Less than 60.00% = F

### **Attendance and Make-up Policy:**

The only acceptable excuses for missing class are those due to illness, approved Sul Ross sanctioned events, and observation of religious holidays. All excused absences **must** be documented on paper. Please inform the professor at least 1 week prior to missing class (e-mail, note on office door, etc...). With an appropriate excuse, you must make up missed quizzes/exams **within 10 days** of the last day of the absence or you have failed to meet your course responsibilities and will receive a zero.

**Student athletes:** You are given a full week to return the completed documentation: your progress (attendance and grade) to your coach, so when you present that card to me, I will take it and return it to you the following class period. Alternatively, you can bring it to my listed office hours and I will look up your progress then. I will not complete them at the beginning or end of class. No exceptions.

### **Classroom Conduct:**

The Student handbook states under Student Misconduct, number 21, "Such prohibition includes disorderly classroom conduct that obstructs, interferes with, inhibits and/or disrupts teaching and/or classroom activities." Behavior which is included in this category: 1) persistent talking to ones' neighbors during lecture, 2) coming to class late or leaving early, 3) the use of cellular phones or MP3 devices in the classroom. **CELL PHONES MUST BE TURNED OFF IN CLASS.** This includes texting, emailing and social networking. *(If you are a member of an EMS/VFD group or have a child in day care and they must be able to reach you, let me know and we will discuss.)* Offenders of this policy will be asked once to stop and 5 points will be taken from their grade. If it occurs a second time, the offender will be instructed to leave the classroom, and there will be a meeting with the Dean of Student Life. If there are further incidents, UDPS will be called and offenders will be physically ejected from the classroom and will likely be expelled from the University.

### **CHEATING AND PLAGIARISM WILL NOT BE TOLERATED:**

Any student caught cheating on an exam or quiz will receive an automatic **zero** on that assignment. If a student is caught cheating second time, additional disciplinary actions will be taken. Any student plagiarizing information on an assignment will receive an automatic zero for that assignment.

### **Students Needing Special Accommodations:**

SRSU Disability Services. Sul Ross State University (SRSU) is committed to equal access in compliance with Americans with Disabilities Act of 1973. It is SRSU policy to provide reasonable accommodations to students with documented disabilities. It is the student's responsibility to initiate a request each semester for each class. Alpine students seeking accessibility/accommodations services must contact Mary Schwartz Grisham, M.Ed., LPC, SRSU's Accessibility Services Coordinator at 432-837-8203 (please leave a message and we'll get back to you as soon as we can during working hours), or email [mschwartz@sulross.edu](mailto:mschwartz@sulross.edu) Our office is located on the first floor of Ferguson Hall (Suite 112), and our mailing address is P.O. Box C-122, Sul Ross State University, Alpine, Texas, 79832.

**Lecture Schedule for the Summer 2022 Semester:**

*This calendar is subject to change with prior notice, at the instructor's discretion.*

<b>Week</b>	<b>Lecture Topics</b>	<b>Reading Assignment</b>	<b>Lab</b>
1	Science and Geology, Time, Minerals, Igneous Rocks, Volcanoes	2: Earth's Interior; 9: Atoms, Elements & Minerals; 10&11: Volcanoes, Igneous Rocks	Minerals
2	Weathering, Soil & Sediment, Sedimentary Rocks	12: Weathering & Soil; 14: Sediment & Sedimentary Rocks	Igneous Rocks, Sedimentary Rocks
3	Metamorphic Rocks, Earth's Interior, Plate Tectonics	15: Metamorphic Rocks; 4&5: Plate Tectonics and Mountain Chains	Metamorphic Rocks, Plate Tectonics
4	Earthquakes, Mountain Building, Structures	7: Earthquakes; 6: Geologic Structures	Geologic Structures, Geologic Time
5	Geologic Time, Streams & Groundwater, Glaciers	8: Time; 16: Streams; 17: Groundwater; 18: Glaciers & Glacial Landscapes	Maps, LAB FINAL EXAM
6	FINAL EXAM
