Course Format:

- This is a hybrid delivered 16-week course that will be delivered synchronously via TEAMS. Remote learning is a different kind of experience from the traditional face-to-face course. **Although online courses and remote learning are convenient, you will shoulder a greater responsibility for personal learning than you might in a face-to-face course.** Online learning will encompass weekly video class meetings that are necessary for content coverage. Candidates should plan to attend all synchronous video class discussions. Attendance and participation is expected in this class. Students can be dropped for excessive absences to include synchronous meetings and online tasks.
- A variety of approaches will be included in course delivery that includes online discussions, small collaborative group work, student presentations, lecture, and gathering assessment data. Your ability to devote a minimum of 6-8 hours per week to your course work is critical to your success. **Assignments will not be accepted after the due date.**
- Successful completion of an online course requires dedication and constant effort. Do not fall behind in your work!
- This course is writing intensive to prepare candidates to administer, analyze, plan and communicate assessment outcomes and instructional planning to stakeholders. This is an upper level college course and requires all writing to conform to standard English structure. Assignments are dependent upon the conventions of writing as well as content.

It is advised that candidates use Smarthinking for written assignments. It is also advisable to consult the writing center or other resources for proofreading and editing.

- **Submit professional quality work.** Have someone proofread your submittals and always use the grammar and spell check functions on your computer before submission. **APA format is required for all formal writing assignments.**

a) Early Childhood: Prekindergarten-Grade 3 Science of Teaching Reading (STR) standards. The STR standards identified in this section are targeted for classroom teachers of early learners (birth through age eight). The standards address the discipline that deals with the theory and practice of teaching early reading. The standards inform proper teaching techniques, strategies, teacher actions, teacher judgements, and decisions by taking into consideration theories of learning, understandings of students and their needs, and the backgrounds and interests of individual students. The standards are also aligned with the *Texas Prekindergarten Guidelines* and Chapter 110 of this title (relating to Texas Essential Knowledge and Skills for English Language Arts and Reading). The standards address early reading content knowledge in Prekindergarten-Grade 5, with an emphasis on Prekindergarten-Grade 3, in order to meet the needs of all learners and address vertical alignment.

(b) Reading Development. The Early Childhood: Prekindergarten-Grade 3 classroom teachers demonstrate understanding of Kindergarten-Grade 5 Texas Essential Knowledge and Skills (TEKS) and *Texas Prekindergarten Guidelines* pertaining to reading and apply knowledge of developmentally appropriate, research- and evidence-based assessment and instructional practices to promote students' development of grade level skills within the following components of reading:

- (1) oral language development;
- (2) print awareness;
- (3) phonological and phonemic awareness;

(1) implementing both formal and informal methods of measuring student progress in early reading development.

(2) designing and executing developmentally appropriate, standards-driven instruction that reflect evidence-based best practices; and

(3) acquiring, analyzing, and using background information (familial, cultural, educational, linguistic, and developmental characteristics) to engage all students in reading, including students with exceptional needs and English language learners.

Assignment Descriptions

Discussion Board and Peer Review (4 @ 50 points each = 200 Points)

Modules will include discussion board opportunities centered on research-based approaches to understand foundational concepts, principles, and best practices related to reading instruction. Discussion Forums are opportunities to extend thinking and share perspectives. A typical discussion forum post should be between 300-400 words. Your task is not to “recall” information read in the text; rather, you will be applying what you read and possibly be responding to a teaching scenario. A portion of your credit will be credited for your post and another portion will be for responding to one of your classmates. Read a minimum of 2 classmate posts and review one in a response that is at least 250 words. In writing your response, strive to have a conversation, a beneficial exchange between professional colleagues. Ask questions, offer suggestions, make comments, give your opinions, and generally react to what your classmates have written. You will not be credit for simply agreeing with someone or telling them how much you like what they wrote. Look critically for the opportunity to share your own knowledge, fill in misunderstandings and inquire about clarifications. **All discussion board posts and responses, like every assignment, must adhere to standard English syntax. Proofread for grammar, usage, and structural accuracy.**

Writing Attitude Survey (100 Points):

Candidates will administer the Writing Attitude Survey to an elementary student and create a 400-word report communicating results and sharing research-based strategies for parents to incorporate at home.

Words Their Way Spelling Inventory and Analysis (150 Points)

Candidates will administer the Words Their Way ESI inventory to a 2nd - 5th grade struggling reader. Candidates will analyze the data and craft a report (minimum 400 words) that shares assessment results and provides intervention suggestions.

Intervention Lesson Plan (100 Points)

Based on the results of the spelling inventory, candidates will create a lesson plan using research-based strategies and best practices for promoting young children’s spelling development.

Book Study Reflections and Review (250 Points)

Candidates will participate in a book study of Kittle and Gallagher's *4 Essential Studies: Beliefs and Practices to Reclaim Student Agency*. Candidates will be submit four reflections (minimum of 500 words each) that represent the 4 studies, and present a formal book review in video format.

Midterm Presentation (100 points)

Final Exam (100 points)

Grading Scale:

A= 900-1000 POINTS – Exceeds Expectation/highest level

B= 800-899 POINTS – Proficient/proficient level

C= 700-799 POINTS – Acceptable/average level

D= 600-699 POINTS – Emerging/inadequate level

F= less than 600 POINTS – Unacceptable

Grading.

- Attendance is a course requirement. After 3 consecutive absences, you can be dropped for non-participation. In a virtual synchronous course, attendance requires that you keep your camera on through the duration of the course. Excused and unexcused absences are not differentiated. Please do not feel the need to provide an excuse of any kind for not attending class.
- No late assignment will be accepted after its due date without prior instructor consent. Blackboard will notate if your assignment is “late”. Though late work will not be calculated into your grade, you may receive feedback on quality of work. This policy is to support marketable skill development (3).
- Candidates seeking certification are required to complete a constructed response prompt that is formatted using APA style; therefore, all citations should be formatted using the American Psychological Association (APA) manual. Papers with APA citation errors will receive a reduction in points or no credit.
- All assignments are due at 10 pm on the designated date.
- There are no optional assignments in this course. All assignments are representative of required skills that must be demonstrated according to certification standards. Please do not request opportunities for “extra credit” to replace assignments that are missed or poorly executed.
- Do not ask for preferential treatment regarding course grading policies or deadlines. Each student in this class has a unique set of circumstances and while it is not uncommon for you to face challenges throughout the session or semester, it is expected that you will meet the course expectations as stated. My expectation is that everyone adheres to the same policies. No student should expect treatment that would not be offered to the entire class, so please do not ask for exceptions.

Understanding Grades:

Course grades are not meant to be elusive. It is important to understand what constitutes a grade. Some students think that merely meeting an assignment's expectation warrants the highest level of performance, but that is not the case. Review the below descriptions of each letter grade and contemplate what goal you are going to set for yourself during this grading period. Work toward that goal realistically.

A – A work exhibits excellent work that demonstrates not only a clear understanding of the material (content) but also a superior ability to utilize that material in the assignment submitted. Not only is all criteria met, the student's work goes beyond the task and contains *additional, unexpected* or *outstanding features*.

B – B work represents solid work that demonstrates a good understanding of the material under study and utilizes material well in assignments submitted. The student meets the assignment criteria, with few errors or omissions.

C – C work demonstrates a technical, or basic, understanding of the material under study and utilizes that material adequately in the assignment submitted. The work meets the minimum assignment criteria.

D – D Work fails to demonstrate a basic, or technical, understanding of the material under study and fails to use relevant material in the assignment submitted. Work may not address one or more criteria or may not accomplish what was asked.

F – F Work is incomplete, inappropriate, and/or shows little or no comprehension of the class material in the assignment submitted.

University and Course Policies:

Classroom Demeanor. Candidates are expected to maintain professional and courteous behavior at all times. This includes being respectful to other both your peers and the instructor, arriving on time, being attentive, and following ethical behavior as outlined in the [TEA Educator Code of Ethics](#). Importantly, this class will foster free expression, critical investigation, and the open discussion of ideas. This means that all of us must help create and sustain an atmosphere of tolerance, civility, and respect for the viewpoints of others. Similarly, we must all learn how to probe, oppose and disagree without resorting to tactics of intimidation, harassment, or personal attack. No one is entitled to harass, belittle, or discriminate against another on the basis of race, religion, ethnicity, age, gender, national origin, or sexual preference. Still we will not be silenced by the difficulty of fruitfully discussing politically sensitive issues.

Dropping a Class. During the course of a semester, circumstances can prevent students from completing a class successfully. Dropping a class may be necessary and/or advised in your specific case. Please feel free to contact me to discuss this option. Should dropping the class be the best course of action, you are responsible for completing the necessary actions by April 14, 2023 at 4:00 pm.

ACADEMIC INTEGRITY: Academic dishonesty hurts everyone and reduces the value of college degrees. Doing someone else's work, presenting the ideas and work of others as your own, submitting the same paper for multiple classes, and/or failing to cite your sources when you utilize the ideas of others, are all examples of academic dishonesty. Academic misconduct, for which a student is subject to penalty, includes all forms of cheating, such as illicit possession of examinations or examination materials, forgery, or plagiarism. Plagiarism is unacceptable and, for the purpose of this course, is defined as using in part or in whole any material written or designed by someone other than the student, unless appropriate credit is given to the person or resource material used. This includes, but is not limited to: lesson plans found on the internet, lessons provided by classroom teachers, materials located in any form of publication (books, magazines, internet sites, etc.), book reviews, and coursework completed by previous students. Disciplinary action for academic misconduct will first be considered by the faculty member assigned to the course and can result in failure of individual assignments and/or course credit.

It is your responsibility to read and understand the university's policy on academic dishonesty in the SRSU Student Handbook, as all violations will be taken seriously and handled through the appropriate university process. In addition, please note that plagiarism detection software will be used in this class for written assignments, as well as monitoring software for course exams.
