ONLINE CLASSES

#1 Student Effort = Student Success

Online classes are not for everyone. Success with this format takes a great deal of self-motivation. Students should realize that they will work just as hard in an online class as they would in a traditional course.

#2 Online Classes Demand Excellent Time-Management Skills

Online classes may let you study whenever you want to, but do not think you'll spend any less time studying. Do you wait to the last minute to do your work? Are you easily distracted? Do you have trouble setting goals and reaching them? If so, online classes might not be for you.

#3 Online Classes are as Difficult as Traditional Classes if not more so for some students:

You might be able to take them on your own schedule, but that does not make the course any easier. Without strong time-management skills, the advantages of online classes quickly become disadvantages. Add to that the challenges of learning through a computer, and it could quickly become a more difficult than a traditional class.

Late Assignment Policy: There will be NO make-up assignments, DB, quizzes or exams.

Students should consult the course calendar to see course assignments and due dates.

Note: Links to assignment submission links will become unavailable after their due dates.

Technology Requirements:

Blackboard is a course management tool that is an integral part of this course. You are required to check Blackboard on a regular basis to keep abreast of course developments. Several Blackboard features are utilized throughout the course including email, course documents, the discussion board, grade center, external links, and SafeAssign.

This course requires a significant amount of online activity. For students to participate and progress in this course the following is required:

1. Basic computer skills
 - a. sending and retrieving emails
 - b. the ability to open files and attaching files for course assignments
 - c. locating websites and other resources on the internet
2. Internet connectivity
 - a. regular access to the internet
 - b. alternative locations for internet access (i.e., on-campus library, friend's house)

Any additional reading materials, resources and other information will be posted in blackboard under the heading "Resources." Students will be notified on how to access this information by the instructor via email as well as by blackboard announcement.

Assessment Rubric:

The homework assignments will be graded with an answer key created by the Instructor.

Students will be provided access to their homework grade via the blackboard grade center, along with feedback on the correct responses for the homework assignment.

Any student needing special assistance on any aspect of the class needs to contact the instructor immediately.

Attendance: Students are expected to check Blackboard regularly for assignments and pertinent information.

The Department of Criminal Justice feels very strongly that attendance is a direct predictor of student classroom success. Therefore, the faculty of the CJ department as a group, will enforce student attendance policy. Students are expected to log in for updates, homework, discussion board and quizzes, pop quizzes and exams. Failure to log in will result in being dropped from the course for failure to attend.

It is the **student's responsibility** to inform the instructor to any event that would cause the student unable participate. Students may email, text, or call me.

Attendance is important! Attendance demonstrates maturity, responsibility, and a serious attitude toward education. Many times, students wish letters of recommendation from their instructors. Prospective employers or graduate programs are all interested in a student's class attendance record.

Academic Dishonesty/Plagiarism:

In the learning environment, professional attitude begins in the classroom. For that reason, students and faculty will not tolerate or commit any form of academic dishonesty. Any form of deception in the completion of assigned work is considered a form of academic dishonesty. This includes, but is not limited to:

- Copying work from any source.
- Assisting, or allowing another to assist you, to commit academic dishonesty.
- Any attempt to share answers whether during a test or in the submittal of an assignment.
- Any attempt to claim work, data or creative efforts of another as your own.
- Resubmitting graded assignments for use in multiple classes (recycling your work).
- Knowingly providing false information about your academic performance to the college.
- To avoid plagiarism, do not "copy and paste" into assignments without using proper quotation marks and citing, in APA format, the source of material.

Students should consult the Sul Ross State University Student Handbook for further details.

Plagiarism:

Avoid plagiarism-ignorance is not an excuse for unethical academic conduct. Here are the rules and resources to help you avoid any problems with plagiarism.

- **Direct Quotes:** Whenever you directly quote someone else, you must provide a citation to the source of material from which you are quoting. Moreover, you must put the material in quotation marks or otherwise set it off in an indented quote so the reader knows what words are yours and what words are quoted. It is unacceptable to use the words of others and only partially quote the original source. This is true even if you provide citation to the source both in text and in your reference section.
- **Paraphrasing/Indirect Quotations:** Whenever you indirectly quote someone else, you must provide a citation to the source of the material from which you are paraphrasing. Simply changing the structure of a sentence, or a few words in a sentence so that the sentence you write is not an exact quote from the original source does not mean a citation is not needed. This is because the idea you are expressing is not your own, but rather someone else's.
- **Using Other's Ideas:** Even if you compose an entire paragraph of writing in your own words, if the idea you are expressing in that paragraph is not your own, original idea, you must provide a citation to the source from which you obtained this idea.
- **Collaborative Work:** If you collaborate on any work with someone else and fail to acknowledge that collaboration, you are guilty of plagiarism. If you have received permission from your professor to collaborate on some assignment, be sure that all of the contributor's names appear on the submission.
- **Altering or Revising Another's Work:** If you alter or revise the work done by someone and submit that work as your own, you have plagiarized. Similarly, if you allow someone else to alter or revise work that you have done and then allow that person to submit it as his or her own work, you both are guilty of plagiarism. Work that is not entirely your own must be credited by citation, both in text and in your references page.

Consequences of Academic Dishonesty/Plagiarism

All violations of academic policy are documented and made a part of the student's academic record. When academic dishonesty is confirmed, the student will immediately be notified of the incident, which may result in one or more of the actions listed below:

- Reduction in grade on the assignment on which the violation occurred.
- No credit on the assignment on which the violation occurred.
- A failing grade for the course.
- Suspension or dismissal from the college.

Dropping the Course: Any student who wishes to drop the class for any reason is advised to follow the proper procedures outlined by Sul Ross State University.
