EDUA/EDSR 6379 Implementation of Ed Tech Program in the Educational Setting

Course Description:
3-0) This course examines best-practices for the implementation of educational technology programs in the educational environment through the development of specific goals and a strategic plan. Although educational settings will be emphasized, strategies can be applied to a variety of settings and occupations. *Recommended to be taken after ED 6378 Integration of Technology into the Curriculum

Required Textbook: No required textbook

Marketable Skills:
The marketable skills focus on the 4C’s of 21st Century Skills to include the following 21st century literacies.
**Critical Thinking:** Students will analyze data, locate solutions to problems, and communicate solutions using a variety of mediums.

**Creativity:** Students will leverage innovative approaches to think outside the box during problem solving.

**Collaboration:** Students will apply collaborative workflows when working with others because it is inherent in the nature of how work is accomplished in our civic and workforce lives.

**Communication:** Students will leverage digital technologies to express thoughts clearly, crisply articulate opinions, communicate coherent instructions, motivate others through powerful speech, visual literacy and academic writing.

**Citation**

**Program Goals:**

1. Design authentic, learner-driven activities and environments that recognize and accommodate learner variability and accessibility. Students will be able to identify common barriers and issues surrounding improper implementation of technological tools in the educational setting, workplace, and/or professional environments.

2. Effectively model the International Society of Technology Education standards and good digital citizenship to inspire learners to use and integrate technology to create equitable and ongoing access to high-quality learning in an educational setting.

3. Plan, provide and evaluate the impact of professional learning for professionals and leaders to use technology to advance teaching and learning in an educational setting. Students will use the use both qualitative and quantitative data to inform their own instruction and professional learning.

4. Understand and apply learning theoretical frameworks and instructional methods to instructional design to facilitate engagement, systemic development, and authentic learning experiences.

**This class will address the following Student Learning Outcomes (SLOs):**

This course is designed as an introduction to the field of instructional design and technology. By the end of the course, students will be able to:

1. The learner will be an active, engaged participant within the learning community through contributions of relevant questions and value-added responses in the Virtual Classroom, threaded discussions, and peer reviews of student created projects.

2. The learner will demonstrate an understanding of the basic issues involved in the administration of educational technology.

3. The learner will demonstrate an understanding of the need to plan for the implementation and integration of technology.

4. The learner will demonstrate an understanding of Federal and State educational technology planning.

5. The learner will articulate a clearly defined goal, means, and justification for a technology plan.

6. The learner will articulate a clear, concise technology plan.
The ISTE Standards are a framework for innovation in education. These standards help educators and education leaders worldwide prepare learners to thrive in work and life. (www.iste.org/standards)

**ISTE Standards for Coaches**
1. Change Agent: 1a, 1b, 1c, 1d, 1e
2. Connected Learner: 2a, 2b, 2c
3. Collaborator: 3a, 3b, 3c, 3d
4. Learning Designer: 4a, 4b, 4c, 4d
5. Professional Learning Facilitator: 5a, 5b, 5c
6. Data-Driven Decision Maker: 6a, 6b, 6c,
7. Digital Citizen Advocate: 7a, 7b, 7c, 7d

**ISTE Standards for Educators**
1. Learner: 1a, 1b, 1c
2. Leader: 2a, 2b, 2c
3. Citizen: 3a, 3b, 3c, 3d
4. Collaborator: 4a, 4b, 4c, 4d
5. Designer: 5a, 5b, 5c
6. Facilitator: 6C, 6D
7. Analyst: 7A, 7B

**ISTE Standards for Educational Leaders**
1. Equity and Citizenship Advocate: 1a, 1b, 1d
2. Visionary Planner: 2e
3. Empowering Leader: 3a, 3b, 3c
4. Systems Designer:
5. Connected Learner: 5a, 5b, 5c, 5d

**Requirements:**

**Course Requirements:**
- Attendance
  - Students should refer to the *Online Absence Policy* posted in Blackboard under the tab Course Information regarding participation in an online course.
- Daily Readings
  - We will be covering a good amount of information in a very short amount of time. A large part of the graduate student responsibility in this course will be to devote time to the required readings and assignments. Please stay prepared to keep up with the rigorous pace of the course.
- Weekly Discussion Board 8 @ 20
- 5 Reflection Journals 5 @ 20 points
- Needs Assessment 40 Points
- OER Resource 60 Points
- Multimedia Presentation 40 points
- Final Technology Plan (Capstone Artifact) 100 points

**Grading Scale**
A=500-450, B=449-400, C=399-350, D=349-300, F=Below 300

Page 3
**All assignments are due on the date posted. Late work WILL NOT be accepted!**

**Dropping a Class.** During the course of a semester, circumstances can prevent students from completing a class successfully. Dropping a class may be necessary and/or advised in your specific case. Please feel free to contact me to discuss this option. Should dropping the class be the best course of action, you are responsible for completing the necessary actions. Please refer to the academic calendar to locate the date to drop this course.

### Module 4: Resource Allocation for Instructional Materials

**View and explore OER Resources**

**Read:**

Curate a OER Resource for Technology Leaders

**Discussion/Peer Review: Digital Resource Management**

After reading material, consider student resources available in your community. Do the school or district's instructional applications support teaching and learning standards across the curriculum?

Is there software support for technology tool skill development?

Does the school/district use technology applications to improve communication?

Does the school/district have appropriate software and systems to support primary administrative functions?

Are the applications in use evaluated for effectiveness?

**Journal Reflection 4:** Describe how OER resources might benefit your community. Were any of these resources new to you?

---

### Module 5: Reviewing a Technology Plan

**Discussion: Review Critique Technology Plan/Peer Review**

Conduct Needs Assessment
- Interview of CIO
- Data Review
  - Digital Learning
  - Assistive Technologies
  - Infrastructure
  - Security
  - Policy
  - Resource Identification and Usage

---

**Journal Reflection 3:** How does your organization address cyberbullying in policy and cybersecurity in policy?
