Meetings will be held at Region 14 South on South Treadaway each Saturday.

Office Hours: This is a blended class, using both the face-to-face and asynchronous Blackboard platforms. We will have regular meeting times designated. I will do my best to respond to your email questions within 24 hours during the week. I do not now have an office at SRSU! My summer residence is in Abilene. Since this is a summer class taught in Abilene and I do not have summer office hours in Alpine, you will need to schedule an appointment with me either at my residence or Region 14 on South Treadaway, or via Blackboard Ultra Collaborate if we need to meet face to face. Probably the best option will be to meet via Blackboard ultra. If you need to talk to me via email, email a message, or text and leave a message I do not use the telephone to discuss significant class business for several reasons, but primarily the risk for misunderstanding is simply too great to risk. Be sure to leave your name and the class you are in. An email message is best, and I prefer that you use this mode of communication during the week.

Course Description:

This is a hybrid course that critically examines the theory and practice of leadership and management in school administration with the goal being to teach future school administrators the practice of leadership as opposed to management. The behaviors, skills, attributes, beliefs, and attitudes for leadership and management will be researched and investigated. Special attention will be given to the difference between the concept of leadership and the concept of management in educational organizations and we will examine which provides the best practice approach to school

administration. This course is restricted to ESC Region 14 Program students.

Course Performance Standards, Knowledge and Skills:

The course is designed to prepare students to function as effective leaders within an educational organization setting. Methods designed to provide an understanding of the process of leadership will be included. Emphasis will be placed on the study, analysis, development, and enhancement of effective leadership and empowering behaviors. The learning, research, and assignments for this class will be based on the TExES Standards and Competencies for certification of Principals and counselors.

Learner Outcomes:

This course emphasizes the theoretical approach to leadership versus management in public schools as it pertains to principals and counselors. To accomplish this objective, this course emphasizes readings, discussion, case study, and applied research using a mixed delivery system of face-to-face and web-based environments.

Student Learning Outcomes

The graduating student will demonstrate that he/she:

1. Has the ability and knowledge to create a culture model that promotes the campus vision; communicate and collaborate with all members of the school community; and act with integrity, fairness, and in an ethical and legal manner (School Community Leadership Domain).

3. Can lead and manage a school campus in relation to budgeting and personnel/resource utilization to ensure a safe and effective learning environment (Administrative Leadership Domain).
4. Portfolio Capstone Assessment: Graduate students in the General Masters Degree program offered through the Region IVX ESC will know how to: prepare a professional portfolio based on the SRSU model defending each student's knowledge of all coursework and orally defend the portfolio with 80% accuracy as the program's comprehensive exam.
