Class Meets: Rooms 103 (classroom) & 109 (darkroom) in the IT Building

Tuesdays, 6:00 – 8:50 pm. Additional Lab hours: TBD

Office Hours:

Tuesdays 4:30 – 6:00 pm or by appointment

Course Overview:

This course is an introduction to black and white film photography and darkroom processes. Students will learn the basics of camera function, exposure, composition, film processing, and printing in the darkroom. We will examine the work of historical and contemporary photographers engaged in analogue photography processes and explore the relevance of analogue photography in the digital age. There will be an emphasis on print quality, creativity, and on an ability to think and speak critically about your work and the work of others.

Blackboard will be used weekly for the distribution of readings, videos, PowerPoint lectures, and assignments. If you do not have reliable internet access, please talk to the instructor.

Required Course Materials

- Sketchbook/notebook for Artist Journal & class notes
- Textbook: A Short Course in Photography: Film and Darkroom by Barbara London and Jim Stone (Available at Campus Bookstore)
- Binder for storing negatives, prints, and assignments
- 35mm camera (provided by the instructor)
- 35mm film (3 rolls provided by the instructor, acquire additional rolls on your own)
- Enlarging paper (5 sheets provided by instructor, acquire additional paper on your own)

Lab Fees

There is a \$50.00 lab fee for Photography. This fee will cover 3 rolls of film, enlarging paper, chemicals, and other materials used for projects done for class only. All lab fees must be paid into the Art Stores Account at the Cashier's office in Briscoe Administration Building (BAB) and a receipt provided to the instructor no later than Tuesday, February 11.

Sourcing Film and Paper

As the semester progresses, you will need to acquire paper and film on your own so that you have enough materials to complete the assignments. I recommend purchasing either Ilford HP5 400 or Kodak Tri-X 400 Black & White 35mm Film and Ilford Multigrade RC Deluxe Pearl 8x10 paper. These items can be found at the following businesses:

- Precision Camera – www.precision-camera.com
- B&H – www.bhphoto.com
- Freestyle Photographic Supplies – www.freestylephoto.biz

Assessment & Grading Criteria

You will be assessed in each class on your progress and participation in lectures, discussions, assignments, and critiques. Your grade will be based on class participation and the quality of the effort you put into completing all assignments, including weekly reading assignments. Being in class is very important. Much of the work for this course cannot be done outside the lab. The knowledge needed to complete assignments will be gained through in-person lectures and demonstrations that will be difficult to repeat or for you to make up. If you miss class, catching up is your responsibility. Alert the instructor if you will not be in class. Come to office hours or schedule a time meet with the instructor following your absence.

How you are graded: Photo assignments - 40%. Class participation in critiques, presentations, and discussions - 20%. Artist Journals - 20%. Final Project - 20%.

Late assignments will be deducted 10 points out of 100 per class meeting.

Work Policy & Absences

It is important to stay on track because we will cover material in class each week that builds on the previous weeks. Don't skip class & don't get behind. If you must miss a class, you **must let the instructor know and schedule a time to make-up work you missed**. Keep up with the assignments posted on Blackboard. Recurring absences will affect your participation grade.

Weekly Responsibilities

- **Class** **Meetings**
-

In addition to time allotted to work on photography projects, each class will consist of one or more of the following: lectures on photographic techniques, history, and practice, class discussions on reading materials and assignments, critiques, and/or demonstrations on image-making and darkroom processes.

- **Readings and Films**

Each week you will be assigned short readings and/or relevant films on photographic concepts, techniques, or history. These will be posted on Blackboard. Write a short response to the assigned material in your **Artist Journal**. I will provide prompts on Blackboard to serve as guides for your reflections. Be prepared to discuss your reflections in class.

- **Artist Journals**

Throughout the semester, you will keep a notebook dedicated to photographs and photographers that interest you, responses to readings/film assignments, and reflections on your progress throughout the course. 1-2 new entries should be added every week. Creativity is encouraged – feel free to include drawings, poems, maps, tokens of inspiration, etc!

At midterm and the end of the semester, we will take time for you to present one image/photographer with the class. Your journals will also be collected for a grade at these times.

- **Photo Assignments**

5 photo assignments and a final project will be assigned throughout the semester. Each week, you will take photographs with your film camera, develop film, and/or print photographs in the darkroom. In-class critiques of your work will be held on the due date of each assignment.

- **Lab**

Additional darkroom (lab) time will be scheduled most weeks. Work in the darkroom outside of the scheduled class time is often necessary in order to complete your photo assignments on time.
