Sul Ross State University is providing this writing tutorial program, free of charge, to currently enrolled students. Smarthinking is a proven, excellent writing tutorial program and user friendly. When you are ready to submit your draft paper to Smarthinking, you may do so through the Smarthinking tab.

This service does not detect plagiarism; you will still need to use SafeAssign for similarity detection. The Smarthinking Writing Center is designed to assist secondary, post-secondary, and graduate students become stronger writers. Students receive a detailed, personalized critique of any written assignment, such as an essay, paragraph, report, or creative work. When applicable, students can select specialists such as ESL, Technical Writing, or Creative Writing experts. Students can submit writing 24 hours a day, seven days a week.

ACADEMIC INTEGRITY:

Students in this class are required to demonstrate scholarly behavior and academic honesty in the use of intellectual property. A scholar is expected to be timely, prepared, and focused. Meaningful, respectful, and pertinent online participation is also expected.

Examples of academic dishonesty include but are not limited to: submitting work as original that was used in whole or part for another course and/or professor; turning in another person's work as one's own; copying from professional works or internet sites without citation.

SAFE ASSIGN:

The Safe Assignment Tool is an advanced plagiarism prevention system deeply integrated with the Blackboard Learning Management System. Safe Assignment compares student papers submitted to Blackboard against an enormous wide range of sources and provides instructors with detailed Originality Reports. Because of Safe Assignment's flexibility, this product is an effective plagiarism prevention system that helps instructors to raise student awareness about plagiarism and to educate students about the ways to avoid plagiarism. You can check your similarity report and make corrections if needed. With your similarity report, you will note highlighted areas that have similarity noted between your paper and another source. You will click on the tab within the colored square to see the percentage of the similarity. Percentages above 20% must be corrected. It does not matter if the source that is being noted for similarity is not the same source that you used. The system is telling you what you have written is too similar to another source and you need to make corrections. You may need to change up some of the wording or order of information to make it your information. More than three or four words in a row that are identical to the originating author can be detected. You can submit your paper as many times as you would like. This system is designed to assist students with increasing awareness of plagiarism. Typically, plagiarism is an accidental occurrence and occurs when students do not realize their writing is overly similar to another source.
