

GEOL 1304 – Historical Geology

Spring - 2025

Section: 001

Lecture Times: MWF: 12:00-12:50 pm, WSB 210

Instructor: Dr. Tom Shiller

Office: WSB 319

Office Hours: Tuesday and Thursday, 9-11:00 am; Wednesday, 1-3:00 pm; or by appointment

e-mail: thomas.shiller@sulross.edu

Materials Required:

Earth System History 4 th ed. by S. Stanley. ISBN: 9781429255264

Lab Manual (if you are taking the lab): None. Handouts will be provided.

Course Purpose:

Historical geology covers several aspects of Earth history including plate tectonics, history of life, and interpretation of the rock record.

General Objectives: Each student will develop:

1. Knowledge about how the plates of the Earth's lithosphere move;
2. Knowledge of sedimentary rock classification;
3. An understanding of the history of geological science;
4. Knowledge of the geologic time scale, evolution, extinction and the origin of life;
5. An understanding of paleoenvironments and paleoecology.

Student Learning Objectives: Each student will demonstrate the ability to:

1. Classify sedimentary rocks;
2. Memorize and recall the geologic time scale;
3. Know the major extinction events in Earth's history;
4. Be familiar with the major tectonic events in Earth's history;
5. Identify different lithofacies based on fossil and lithologic evidence;
6. Understand prehistoric life.

Student Learning Objectives for Empirical & Quantitative and Teamwork Skills:

- Empirical & Quantitative. Students will develop empirical and quantitative skills to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.
- Teamwork. Students will develop teamwork skills to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.

Homework:

There will be two take-home assignments given during the semester requiring independent research, critical thinking, and technical writing. Assignments will be given during class and will not be available on Blackboard. A due date will be given on the day homework is assigned. Late projects will be accepted at 50% of your earned point value by 6 pm. on the due date (including immediately after class); 25% value by the end of the following day, and 0% after that. Each homework assignment is worth about 8% of your total grade. If you are planning on missing class for a Sul Ross sanctioned event or other valid reason, homework must be turned in early (prior to the absence).

Time Scale Quizzes:

Four unannounced quizzes will be given during the semester at the beginning of class (so don't be late for class!). You will be required to memorize a simplified version of the geologic time scale and recall it for each of the unannounced quizzes.

Exams:

There will be four total exams covering sections discussed following the previous exam. These exams will comprise primarily short answer and essay questions. You may not use your notes for exams. Special arrangements will need to be made for make-up exams. Exams will be curved at the professor's discretion. Students with two or fewer unexcused absences may drop their lowest exam score.

Presentations:

Students will work in groups to complete two research assignments. Groups will present their research to the class and will be assessed individually.

Extra Credit:

There will be a one-day optional field trip to Big Bend National Park on _____. Students attending the trip can earn up to 10 points extra credit by completing a short follow-up assignment.

Grading System:

- 4 Exams = 60% (15% each)
- 4 Quizzes = 8% (2% each)
- 2 Homeworks = 16% (8% each)
- 2 Presentations = 16% (8% each)

Your grades will be recorded on Blackboard in the Grade Center.

Letter Grading: Final course grade will be based on a percentage of the total points as follows:

- 90.00-100% = A
- 80.00-89.90% = B
- 70.00-79.90% = C
- 60.00-69.90% = D
- Less than 60.00% = F

Attendance and Make-up Policy:

The only acceptable excuses for missing class are those due to illness, approved Sul Ross sanctioned events, and observation of religious holidays. All excused absences **must** be documented on paper. Please inform the professor at least 1 week prior to missing class (e-mail, note on office door, etc...). With an appropriate excuse, you must make up missed quizzes/exams **within 10 days** of the last day of the absence or you have failed to meet your course responsibilities and will receive a zero. Attendance is expected, but does not count towards the final grade. Students with 2 or less unexcused absences may drop an exam grade. **Arriving 10 minutes or later to class will be considered an unexcused absence.**

University policy dictates that your instructor can drop you with an F from the course after 6 absences from MW classes.

Student athletes: You are given a full week to return the completed documentation: your progress (attendance and grade) to your coach, so when you present that card to me, I will take it and return it to you the following class period. Alternatively, you can bring it to my listed office hours and I will look up your progress then. I will not complete them at the beginning or end of class. No exceptions.

Classroom Conduct:

The Student handbook states under Student Misconduct, number 21, "Such prohibition includes disorderly classroom conduct that obstructs, interferes with, inhibits and/or disrupts teaching and/or classroom activities." Behavior which is included in this category: 1) persistent talking to ones' neighbors during lecture, 2) coming to class late or leaving early, 3) the use of cellular phones or MP3 devices in the classroom. **CELL PHONES MUST BE TURNED OFF IN CLASS.** This includes texting, emailing and social networking. *(If you are a member of an EMS/VFD group or have a child in day care and they must be able to reach you, let me know and we will discuss.)* Offenders of this policy will be asked once to stop and 5 points will be taken from their grade. If it occurs a second time, the offender will be instructed to leave the classroom, and there will be a meeting with the Dean of Student Life. If there are further incidents, UDPS will be called and offenders will be physically ejected from the classroom and will likely be expelled from the University.

CHEATING AND PLAGIARISM WILL NOT BE TOLERATED:

Any student caught cheating on an exam or quiz will receive an automatic **zero** on that assignment. If a student is caught cheating second time, additional disciplinary actions will be taken. Any student plagiarizing information on an assignment will receive an automatic zero for that assignment.

ADA Statement

SRSU Accessibility Services. Sul Ross State University (SRSU) is committed to equal access in compliance with the Americans with Disabilities Act of 1973. It is SRSU policy to provide reasonable accommodations to students with documented disabilities. It is the student's responsibility to initiate a request each semester for each class. Students seeking accessibility/accommodations services must contact Mrs. Mary Schwartze Grisham, LPC, SRSU's Accessibility Services Director or Ronnie Harris, LPC, Counselor, at 432-837-8203 or email mschwartz@sulross.edu or ronnie.harris@sulross.edu. Our office is located on the first floor of Ferguson Hall, room 112, and our mailing address is P.O. Box C122, Sul Ross State University, Alpine. Texas, 79832.

Lecture and Lab Schedule for the Spring 2025 Semester:

This calendar is subject to change with prior notice, at the instructor's discretion.

Week of...	Lecture Topics	Lab
1/13	Review of plate tectonics	
1/20	No Class (1/20) , General classification of sedimentary rocks	Introduction and Review of Plate tectonics
1/27	History of geological science	Rocks and Minerals Review
2/3	The geologic time scale	Time Scale
2/10	Fossils, Exam 1	Relative Ages and Unconformities
2/17	Evolution, extinctions	Depositional Environments 1
2/24	Origin of life	Depositional Environments 2
3/3	Earliest history of the earth, Exam 2	Lab Exam (covers first 6 weeks)
3/10	Paleozoic, lithofacies, paleoenvironments, fossils	Facies and Correlation
3/17	SPRING BREAK	SPRING BREAK
3/24	Paleozoic	Fossil Record and Preservation
3/31	Mesozoic	Paleozoic Fossils
4/7	Lithofacies, paleoenvironments, fossils, dinosaurs, Exam 3	Mesozoic Fossils
4/14	Cenozoic, lithofacies, paleoenvironments	Cenozoic Fossils
4/21	Cenozoic, paleoenvironments, fossils	LAB FINAL EXAM
4/28	Review, FINAL EXAM	

Geology BS marketable skills:

1. Student will be able to conduct field work.
2. Student will be able to use field equipment.

3. Student will be able to use lab equipment.
4. Student will be able to use library resources.
5. Student will be able to communicate in written and oral format.

Geology BS SLO's:

1. The student will be able to apply a diverse body of Geologic information in the area of Earth history.
2. The student will be able to apply a diverse body of Geologic information in the area of mineralogy and petrology.
3. The student will be able to apply a diverse body of Geologic information in the area of structural geology and tectonics.
4. The student will be able to apply a diverse body of Geologic information in the area of stratigraphy.
5. The student will be able to apply a diverse body of Geologic information in the area of field techniques.

Student Responsibilities Statement: All full-time and part-time students are responsible for familiarizing themselves with the Student Handbook and the Undergraduate & Graduate Catalog and for abiding by the University rules and regulations. Additionally, students are responsible for checking their Sul Ross email as an official form of communication from the university. Every student is expected to obey all federal, state and local laws and is expected to familiarize themselves with the requirements of such laws.
