Appendix V: Extra Credit Critical Book Review

I: Learning Objective

The critical book review is designed to build knowledge and skills related to the study of history including but not limited to: reading comprehension, historical interpretation and synthesis, factual analysis, critical thinking, time management and writing in standard English.

II. Directions

- A) Each student has the option to write a critical book review, for extra credit, over a civilisation existing in the time period covered by our class, or on a biography of an important historical personage in the ancient or mediaeval period. Students may choose their book to review from the list of books in Appendix III. Books titles must be chosen and turned into the instructor for approval by the assigned dates in the class schedule. Each book review will be 4-5 pages in length.
- B) There is no one correct way to write a book review. However, as you read, it is suggested you look for some or all of the following topics.¹
- What historical subject is the author writing about and what field does the book fit into?
 - What is the main thesis (central argument) of the book?
 - How does the author structure the book? Is the presentation of the book clear, orderly and logical?
 - What primary sources does the author use?
 - Does the author appear to have done comprehensive research for the book?
 - What supplemental features such as maps, charts, illustrations and/or bibliography does the book have? How well do they help you understand the book?
 - How well does the author write and is the writing easily understandable?
 - Are there any factual errors that jump out? People or events that the author has overlooked?
 - Why did the author write the book and did it accomplish its purpose?
 - What is your reaction to the book - was it enjoyable to read, did the author convince you of their thesis, what new information did you learn while reading the book?
 - Would you recommend this book and to what audience?
 - Do you have any additional comments?
- C) Review must be written in your own words. **[DO NOT PLAGIARIZE]** Be sure to proofread the final copy prior to submitting. Reviews will be turned in through **Safe Assign**.

III. Format

Book reviews will need to have two columns to a page, be double-spaced and use 12pt Times New Roman or Cambria font. Use footnotes to cite any outside books referenced in the review.

A book review is in its essence a short essay. As such you need to have this essay arranged in a clear and logical order. How you have the review arranged is up to you, however, one option is listed below. The instructor will also post sample reviews on Blackboard for you to look at for ideas.²

- Short description of the subject, scope and the purpose of the book
- How does the author have the book structured?
- Outline the main thesis (central argument) of the book and any biases of the author.
- Evaluation of each chapters information and arguments.
- Important points brought up by the author in each chapter.
- Evaluate the strengths and weaknesses of the book.
- How well do the supplementary materials support the book.
- What is your overall assessment and recommendation for this book
