"A failure is not always a mistake; it may simply be the best one can do under the circumstances. The real mistake is to stop trying".

~*B.F. Skinner*

My name is Dr. Gloria Hudson, and I will be your instructor through this interesting journey we call the world of Abnormal Psychology. Abnormal Psychology focuses on psychopathology, the study of the symptoms and causes of mental distress and the various treatments for behavioral and mental disorders. Those who study psychopathology attempt to describe, explain, predict, and modify the behaviors, emotions, or thoughts associated with various mental conditions. This includes behavior that ranges from highly unusual to common—from the violent homicides, suicides, and mental breakdowns that are widely reported by the news media to unsensational (but more prevalent) concerns such as depression, anxiety, eating disturbances, and substance abuse. People who work in the field of psychopathology strive to alleviate the distress and life disruption experienced by those with mental disorders and the concerns of their friends and family members.

In the following pages you will find the tentative topic schedule for the course. The specific days and topics are subject to change, but the schedule should prove relatively accurate with respect to order of coverage.

Course Requirements

The first requirement: There are several aspects of the course which will be required. These are as follows: I wish to have a log of the readings you have done for the course turned in at the end of each week in what I call a “Reading Log Post”. In the log you will respond to a specific question presented from the chapter you have just read during the week. Weekly Reading Log responses should be written clearly and should indicate that you have a clear understanding of the week’s material and concepts. Responses should answer the question with evidence-based support from the reading, indicating that you really know what you are talking about! Each reading logs are worth 10 points and must be turned in weekly on time! **Your first reading log post is due by Sunday, January 19th, by midnight. Introduce yourself and in the first reading log post, commenting on the syllabus and what you think *abnormal* means.**

The **second requirement** is that you write a paper, which I refer to as a “Compact Research Paper”. This paper should be written in APA format and include the following elements:

1. Explore one disorder, therapeutic approach, or mental health issue;
2. Explain how it develops/its etiology/its contributing factors;
3. Describe who it affects, how, and why;
4. Explain how it has impacted you, your family/friends, U.S. society, AND the global community (our world);
5. How can this issue be improved for the betterment of all? What is your responsibility in this?

Your research paper should have at least six (6) references other than the text. Use at least two (4) peer-reviewed journals (which can be electronic). Use the APA reference manual for format guidelines. Go to library or SRSU Writing Center for help, or use the internet resources provided on Black Board for this course. Please ask for help early on so that you do not get overwhelmed. See the attached PERSONAL CHANGE PAPER CHECKLIST at the end of the syllabus for specifics on components of the paper. **The personal change paper will be due by midnight on Sunday, May 4th.**

A **third requirement** is completing a 20 question quiz every other week that covers the weeks just covered. Your first quiz is due by Sunday, January 26, by midnight. Subsequent quizzes are due every other Sundays by midnight. **The submission period for quizzes will close at midnight on the Sundays (1/26, 2/9, 2/23, 3/9, 3/30, 4/13, 4/27)**

A **fourth requirement** is that you turn in to me a statement of your own evaluation of your work and the grade that you think is appropriate. This statement should include: a) the

criteria by which you are judging your work; b) a description of the ways in which you have met or failed to meet those criteria; and c) the grade you think is appropriate to the way you have met or failed to meet your own criteria. If I find that my own estimate of your work is quite at variance with yours I will have a personal talk with you to see if we can arrive at some mutually satisfactory grade which I can in good conscience sign and turn in.

The **final requirement** is to be your personal reaction to the course as a whole. I would like this submitted to me in the portal I set up for it. You are at liberty, however, to let me know, "Please do not open until the final grades have been turned in." If you mark the submission in this fashion, I assure you I will honor your request.

In this reaction, I would like you to state very honestly what the course has meant to you, both positively and negatively. I would like any criticisms you have to make of the course and suggestions of ways in which it might be improved. This in short is your opportunity to evaluate the course, the instructor, and the manner in which the course has been carried out. It will in no case have any influence on your final grade but if you are fearful that it might have such an influence please mark your submission as suggested, and I will not open it until all the grades have been turned in. **The personal reaction to the course will be due by midnight on Sunday, May 4.**

Other activities will come up during the term and you are expected to complete them fully and on time.

I feel it is important that students learn about deadlines. Therefore, I do not accept work after its due date unless there's some type of emergency.

A passing grade in the course will not be turned in until all of these requirements have been fulfilled.

Attendance and Course preparation:

This is an asynchronous online course. Asynchronous learning happens on your schedule. There is no online or in-campus meeting for this course. You can access all course materials, including videos, presentations, assignments, and quizzes via Blackboard, and complete them on your own schedule. But please keep in mind that you must meet the expected deadlines for each activity. Each week on Mondays the class will start a new chapter. Within the week, students will manage their time to complete the required assignments that are assigned for the week by Sunday at Midnight!

Class attendance is governed by the SRSU policy stated in the schedule of classes. Students will be dropped with an "F" when you have accumulated six (6) or more absences OR the equivalent in a web-based course. *Class attendance in this course includes logging onto Black Board during the first week of class, monitoring your SRSU email and Black Board announcements on a daily basis, taking exams, posting, and completing other assignments on*

time, as well as communicating in a timely and clear manner with the professor regarding challenges experienced related to the course.

Below you will find the Student Learning Objectives (SLOs) dealt with in this course. The student learning outcomes follow and relate, to a greater or lesser extent, to each SLO dealt with in the course.

Student Learning Objective (SLO #1)

1. The students will be able to demonstrate competency in the biopsychosocial approach.

Student Learning Objective (SLO #2)

2. The students will be able to demonstrate their critical thinking skills via tasks related to student thought, complexity, and originality.

Student Learning Outcomes

Required Task-Reaction Reports:

Goal One: The student will demonstrate the ability to engage in the self-expression of emotions by writing bi-weekly reaction reports. (Affective Domain: Respond)

Goal Two: The student will demonstrate value development by reporting an emotion they experienced in the reaction reports. (Affective Domain: Value Development)

Required Task-Reading Log:

Goal Three: The student will write an evaluation of the readings they complete for the course that will be examined weekly until the end of the semester. (Cognitive Domain: Evaluation)

Goal Four: The student will demonstrate an awareness of their responsibility for their development as a life-long learner by taking personal responsibility for the volume of readings they complete. (Affective Domain: Value Development)

Required Task-Compact Research Paper:

Goal Five: The student will write a critical evaluation of the issues they have learned about concerning in the course. This evaluation will concern the state of their knowledge about an issue in abnormal psychology not covered in their textbook. (Cognitive Domain: Evaluation)

Goal Six: The student will create an original paper that demonstrates the state of their knowledge about abnormal psychology by researching a topic not covered in their textbook. (Psychomotor Domain: Creation)

Goal Seven: The student will freely express their opinion that demonstrates the student has been independently studying and thinking about issues in abnormal psychology. (Affective Domain: Value Development)

Marketable Skills Assessed by the Tasks Completed in this Course

1. Speaking Effectively: Students will demonstrate competency in public speaking and communicating scientific information to diverse audiences.
2. Describing Feelings: Students will demonstrate empathic or active listening and conversational skills, and/or write clearly about their affective stance, respectfully attuned to the needs of their audiences.
3. Identifying Resources: Students will demonstrate the aptitude to locate, organize and evaluate the credibility of information from multiple sources.
4. Analyzing: Students will demonstrate ability to examine the underlying issues of scientific problems, attending to the pertinent details and creating action plans, recognizing ambiguity and complexity as essential components. Students will communicate effectively in writing.

Distance Education Statement: Students enrolled in distance education courses have equal access to the university's academic support services, such as Smarthinking, library resources, online databases, and instructional technology support. For more information about accessing these resources, visit the SRSU website. Students should correspond using Sul Ross email accounts and submit online assignments through Blackboard, which requires secure login information to verify students' identities and to protect students' information. The procedures

for filing a student complaint are included in the student handbook. Students enrolled in distance education courses at Sul Ross are expected to adhere to all policies pertaining to academic honesty and appropriate student conduct, as described in the student handbook. Students in web based courses must maintain appropriate equipment and software, according to the needs and requirements of the course, as outlined on the SRSU website.

SPECIAL NOTATION FOR EDUCATION STUDENTS:

I know that some education students may take this course. This course addresses some of the objectives of the TExES Exam for the subject area of social science, which includes a psychology portion. Specifically, this course may address the following objectives, among others.

Domain III

Geography, Culture, and the Behavioral and Social Sciences

Competency 13 (Social, Anthropological, and Psychological Concepts and Processes)

The teacher applies sociological, anthropological, and psychological concepts and processes to understand cultural formation and change, intergroup relations, and individual development.

- Demonstrates knowledge of the history and theoretical foundations of psychology.
- Demonstrates knowledge of the behavioral, social, cognitive, and personality perspectives of human learning.
- Understands basic psychological principles and including those related to motivation, sensation and perception, personality, relationships between biology and behavior, and relationships between the self and others.

The interested student is informed that for full information concerning the TExES exam in education concerning psychology as a part of the social sciences, they should contact the SRSU Education Department for materials concerning test preparation and administration. It is the student's responsibility to inform the instructor of this course if he or she is a candidate for the exam. If so, the instructor can guide them to resources that will assist with their exam preparation **Disabilities Act Statement**

SRSU Disability Services. Sul Ross State University (SRSU) is committed to equal access in compliance with Americans with Disabilities Act of 1973. It is SRSU policy to provide reasonable accommodations to students with documented disabilities. It is the student's responsibility to initiate a request each semester for each class. Students seeking accessibility/accommodations services must contact Mary Schwartze, LPC, SRSU's

Accessibility Services Coordinator at 432-837-8203 (please leave a message and we will get back to you as soon as we can during working hours). Our office is located on the first floor of Ferguson Hall (Suite 112), and our mailing address is P.O. Box C-122, SUI Ross State University, Alpine, Texas, 79832.

Academic Integrity:

Students in this class are expected to demonstrate scholarly behavior and academic honesty in the use of intellectual property. A scholar is expected to be punctual, prepared, and focused; meaningful and pertinent participation is appreciated. Examples of academic dishonesty include but are not limited to: Turning in work as original that was used in whole or part for another course and/or professor; turning in another person's work as one's own; copying from professional works or internet sites without citation; collaborating on a course assignment, examination, or quiz when collaboration is forbidden.
