For this activity, the class will be divided into groups of 5 or 6 students who will collaborate over the semester to create and present a comprehensive business strategy for a selected organization. The strategic management plan should cover areas such as competitive analysis, market positioning, organizational culture, and risk management.

The evaluation criteria for the group assignment will focus on several key areas: the depth and relevance of research conducted on the chosen company and industry; the clarity and practicality of the strategic recommendations proposed; a thorough analysis of the competitive landscape and market conditions; an understanding of how organizational culture influences strategy implementation; the professionalism and effectiveness of the presentation, including the use of visual aids; and evidence of effective collaboration and equitable distribution of tasks among group members.
