Fryxell, Sinclair, and Caughley. 2014. Wildlife ecology, conservation, and management. Third Edition, Blackwell Publishing, Malden, Massachusetts. (Recommended, but not required)—can also use 2nd edition

Catalog description: This course is an application of the principles of wildlife management to game species with a focus on the biology and behavior of big game, waterfowl, and upland bird species, and how this influences habitat management, production, population characteristics, and management strategies for each species.

Course objective: To provide a general overview of: (1) the ecology and conservation strategies of large mammals of North America; (2) the practices commonly used to manage big game species in North America.

Grading: Exam 1 – 20%
Exam 2 – 20%
Exam 3 – 20%
Species profiles – 25%
Reports – 15%

Scale: 90 -100% = A
80 – 89% = B
70 – 79% = C
60 – 69% = D
< 60% = F

Attendance: No make-up quizzes, assignments, or exams will be given unless prior approval is obtained.

Species profiles: Each student will select one big game species that occurs in the Southwestern United States to profile. Once a species has been selected, the student will conduct a literature review of the species. A bibliography (15 citation minimum, must be peer reviewed) is due on the **first week of October**. Using their respective bibliographies, each student will write an 8-10 page paper on the life history of the species as it relates to the Southwest. The final draft is due on the **first week of December**.

Accommodations: It is up to Sul Ross State University to provide reasonable accommodations to students with disabilities. If you would like to request such accommodations because of physical, mental, or learning disabilities please contact the ADA coordinator for Program Accessibility located in Room 206 of the Briscoe Administration Building, or call 432-837-8203.

Program learning objectives:

Program Learning Outcomes for the **M.Agr. in Range and Wildlife Management**

The graduating student will demonstrate that he/she is able to:

1. Apply statistical concepts and procedures to natural resource data
2. Evaluate literature and references as they apply to the natural resource field
3. Demonstrate their knowledge of the fundamentals and advanced concepts of range and wildlife management.

Program Learning Outcomes for the **M.S. in Range and Wildlife Management**

The graduating student will demonstrate that he/she is able to:

1. Apply statistical concepts and procedures to natural resource data
2. Evaluate literature and references to substantiate an applied research project.
3. Examine, select, and utilize appropriate resources, materials, and data collection instruments to implement research projects.
4. Justify and defend the research questions and design.

Academic Integrity. Students in this class are expected to demonstrate scholarly behavior and academic honesty in the use of intellectual property. A scholar is expected to be punctual, prepared, and focused; meaningful and pertinent participation is appreciated. Examples of academic dishonesty include but are not limited to: Turning in work as original that was used in whole or part for another course and/or professor; turning in another person's work as one's own; copying from professional works or internet sites without citation; collaborating on a course assignment, examination, or quiz when collaboration is forbidden.

SRSU Disability Services. SRSU Disability Services. Sul Ross State University (SRSU) is committed to equal access in compliance with Americans with Disabilities Act of 1973. It is SRSU policy to provide reasonable accommodations to students with documented disabilities. It is the student's responsibility to initiate a request each semester for each class. Students seeking accessibility/accommodations services must contact Rebecca Greathouse Wren, LPC-S, SRSU's Accessibility Services Coordinator at 432-837-8203 (please leave a message and we'll get back to you as soon as we can during working hours), or email rebecca.wren@sulross.edu.
