Course Mission

The mission of the First Year Seminar is to provide first-year students opportunities to:

1. develop knowledge, behaviors, and attitudes that promote successful academic and non-academic civic participation, and
2. appreciate multiple perspectives and reflect deeply on intellectual, cultural and political issues within and beyond college.

Cours Description

First-Year Seminar is designed to help students develop strategies and skills necessary for a successful college experience. Topics include adjusting to college, setting academic goals, managing time and keeping organized, learning and studying in college, preparing for and taking tests, understanding college policies and regulations, and accessing and using SRSU computer technology. Students will learn about SRSU's resources, activities, and rich cultural diversity. Throughout the course, students will use critical thinking skills to make informed choices, to understand their responsibilities for academic success, and to become independent, motivated learners.

Course Goals

All First-Year Seminars have five common goals for every student enrolled:

1. Expand and deepen their understanding of the world and of self.
2. Enhance their ability to read and think critically.
3. Enhance their ability to communicate effectively, in writing, speech, and other appropriate forms.
4. Develop the fundamentals of information literacy and library research.
5. Work closely with the class instructor.

Student Learning Outcomes

Upon successful completion of this course students will:

1. Implement personal time management strategies based on short and long-term goals.
2. Describe behaviors and habits that support personal responsibility for learning, characteristics of an effective learner, techniques that promote student success and problem-solving of academic issues, and be able to discuss respect, civility, and academic integrity at SRSU.
3. Describe the institution, department, and course requirements to earn a college degree and be able to identify SRSU policies in relation to them.
4. Identify and utilize college resources, activities, and events and demonstrate the use of SRSU technology: student e-mail, SRSU website, Blackboard, and Lobo Online.
5. Exhibit financial literacy in relation to college and beyond.
6. Discuss the importance of SRSU in the larger community.
7. Develop critical thinking skills to include creative thinking, innovation, inquiry, and analysis,

evaluation, and synthesis of information.

Attendance & Class Participation

Your attendance and participation in this course are reflected in your grade. Please be proactive in informing the professor of any expected absences in advance in order to meet class requirements.

Supplemental Materials: (Provided through SR Blackboard)

Academic Integrity

Students in this class are expected to demonstrate scholarly behavior and academic honesty in the use of intellectual property. Students should submit work that is their own and avoid the temptation to engage in behaviors that violate academic integrity, such as turning in work as original that was used in whole or part for another course and/or professor; turning in another person's work as one's own; copying from professional works or internet sites without citation; collaborating on a course assignment, examination, or quiz when collaboration is forbidden.

Students should also avoid using open AI sources ***unless permission is expressly given*** for an assignment or course. Violations of academic integrity can result in failing assignments, failing a class, and/or more serious university consequences. These behaviors also erode the value of college degrees and higher education overall.

Classroom Climate of Respect

Big Three:

- Show up on time.
- Be present for the 50 minutes we are together.
- Be respectful to other classmates.

This class will foster free expression, critical investigation, and the open discussion of ideas. This means that all of us must help create and sustain an atmosphere of tolerance, civility, and respect for the viewpoints of others. Similarly, we must all learn how to probe, oppose, and disagree without resorting to tactics of intimidation, harassment, or personal attack. No one is entitled to harass, belittle, or discriminate

against another on the basis of race, religion, ethnicity, age, gender, national origin, or sexual preference. Still, we will not be silenced by the difficulty of fruitfully discussing politically sensitive issues.
