Connecting with Students for Success

As a part of a research study, I am committed in this course to the following:

I will know your name	I will provide user-friendly, timely feedback on your assignments	I will hold high standards and support you to achieve them	I will hold an individual meeting with each student during the semester
-----------------------	---	--	---

The graphic is titled 'Connecting with Students for Success' in a red, cursive font. Below the title, it states 'As a part of a research study, I am committed in this course to the following:'. This is followed by a table with four columns, each containing a commitment. The first and third columns have an orange background, while the second and fourth have a light blue background. The commitments are: 'I will know your name', 'I will provide user-friendly, timely feedback on your assignments', 'I will hold high standards and support you to achieve them', and 'I will hold an individual meeting with each student during the semester'.

This course will be participating in an initiative at Sul Ross State University referred to as “Connecting with Students for Success”. This study is aimed at connecting with students in a way that sets them up for better success, overall. As a part of this study, each student will be required to meet with me at least once during my office hours before March 18th, 2024. This will be included in your grade for the Career Choice Project. The reasoning behind this, is that I would like to personally speak to each of you about how you feel regarding your project, help you with questions about your project, discuss how you feel about the class overall, and your time at Sul Ross State University. Please schedule an appointment with the professor, as soon as possible, via email. I will be flexible in scheduling these appointments with you. Please see the office hours available for scheduling on the first page of the syllabus. If you need another time frame, please discuss with the professor.

Not having the technology at your disposal at any time is not an excuse for failure to submit an assignment, join in an MS Teams or Blackboard Collaborate session, or take an exam.

ACADEMIC INTEGRITY:

Students in this class are required to demonstrate scholarly behavior and academic honesty in the use of intellectual property. A scholar is expected to be timely, prepared, and focused. Meaningful, respectful, and pertinent online participation is also expected.

Examples of academic dishonesty include but are not limited to: submitting work as original that was used in whole or part for another course and/or professor; turning in another person's work as one's own; copying from professional works or internet sites without citation.

For this reason, students should never upload or share personal, confidential, or identifiable information—such as names, ID numbers, health data, or assignment submissions containing such details—into any generative AI platform. When using AI tools, students should verify whether the tool complies with student privacy standards as indicated by the University. Faculty may recommend specific tools that better align with institutional data privacy policies, but ultimate responsibility for data protection rests with users. COURSE REQUIREMENTS

Assignments:

A schedule of assignments is attached to this syllabus. Complete chapter readings and study the material PRIOR to the date for which assignments are due. Discussion board questions and objective quizzes over the assigned readings will be given.

4-Part Research Paper:

A professionally written research paper will be a major portion of the final grade for the course. To better support student learning and success, the research paper will be submitted in four parts; see course schedule and/or Blackboard (Bb) for each section’s due date.

Instructions for Your Final “Exam” Paper:

1. Choose three major theories.
2. Describe each theory in detail.
3. Contrast and compare the theories you chose.
4. Based on your own personality and current counseling style, which theory or theories do you prefer to use? Please explain in detail why. *Note: for this section only, please write in first person, using "I" because you are addressing your personal preference(s).*

***HINT:** USE THE ABOVE AS HEADERS IN YOUR PAPER TO ORGANIZE IT. In other words, after an Introduction, Theory #1 (whatever you choose) will be your next header; Theory #2 will be your next header; Theory #3 will be your next header; Contrast and Comparison will be your next header; Preferred Theory (Theories) will be your next header, and Conclusion will be your last header. There is some flexibility here, but this is basically what would work best.

Follow APA style for citations and reference entries (See the APA writing instructions/format information, use the APA writing manual and apastyle.org will be helpful). You must have a minimum of 3 reliable sources listed on your References page as well as your textbook. DO NOT use unreliable websites, dictionaries, Wikipedia, encyclopedias, etc.

Your textbook will be the primary source for this paper, but you are also required to locate **at least three professional, peer-reviewed journal articles** to supplement the information you offer in your paper.

Make sure that all three additional sources are from **peer-reviewed, professional journals** as you will lose points for using unreliable websites, dictionaries, Wikipedia, etc. You can go to the following URL for the Sul Ross library:

[Databases A-Z \(libguides.com\)](http://libguides.com)

This will take you to an Alphabetical List of Databases. Students, I suggest you use either Academic Search Complete or PsycINFO) to find an article that addresses the theory or theories of your choice. You can also "Jump to Advanced Search."

[Advanced Search: SRSU Library Quick Search \(ebscohost.com\)](http://ebscohost.com)

Be sure to limit your search to **full text articles not abstracts** which are just summaries. **Check the box for "peer-reviewed journals."** Enter whatever theory you choose into the search box (e.g., "cognitive therapy"). You should find quite a number of articles on any theory or theories you choose. You might want to limit your search to the last 7-10 years or so as those articles will be more current. If you are still having difficulty finding appropriate professional materials, that is when you phone the Sul Ross librarians. They are a graduate student's best friends.

By the way, remember to use **APA style for the correct form for a journal article reference entry (it is different than for your book), and also include citations for your text and the journal articles.**

You should have numerous parenthetical and narrative in-text citations in the body of your paper. Remember if you directly quote the author, word for word, you must use quotations and provide the page number. If you put the author's information into your own words, you must cite the source you borrowed the information from. If the information is not 100% originally created from you, you must cite a source. Otherwise, this can lead to plagiarism.

The paper should contain a title page (with your name, the course number, the date, the instructor, and the title of your paper), the body of your paper (from 8-9 pages), and a separate References page. Number all pages, beginning on the first page (title page). Your total paper should therefore **total a minimum of 10 pages, including title page and References page.**

Writing Style-- APA writing format is required. Written assignments must be typed using one-inch margins, 12-point type, and double line spacing; have all pages beginning with the title page numbered, and edit for spelling, punctuation, and grammar. Do not use contractions unless in a direct quote. Write in third person point of view/perspective (i.e., do not use I, me, we, you, etc.). Papers with multiple errors will receive a reduction in grade.

Do not wait until the night before the due date to write your paper. You will not have time to create a quality and well-edited paper.

When you feel you are nearly finished, I recommend submitting your paper to the "Draft" submission, so that you can check your similarity report and make needed changes prior to your final submission. You can submit your draft paper as many times as you want to and make revisions until you feel ready for your final submission, which is a separate submission tab. Note the due date.

EVALUATION/GRADING POLICY:

Chapter Quizzes	25% of final grade
Discussion Boards/Responses	25% of final grade
“Cheat Sheet” (Scrambled Theories) Test (125 points)	15% of final grade
Final “Exam” Paper (4-part submission)*	35% of final grade

*Plagiarizing any portion of your paper will result in a zero for the assignment and possibly disciplinary action.

GRADING:**A=100-91%****B=90-81%****C=80-71%****F=70% and below**

Graduate students must maintain a 3.0 GPA to remain in good standing.

Grades of **Incomplete (I)** are not given in the Professional Studies Division of Sul Ross State University *except* in the *most extreme* situations.
