## Description

My name is Alicia Trotman and I am very excited to teach the intriguing content of the development of a human being from birth to death. It is a fascinating life cycle that may provide you with insight about your own development from toddlerhood to the age that you are sporting now! I have taught this course for more than 10 years and I am always enthusiastic about teaching it because I learn something new every time. And not only the content spurs my interest, but your comments, questions, and a-ha moments will make this course a lot more engaging for you, and everyone else! This foundational course covers human development from a selected number of psychological theoretical perspectives. By development, we refer to “patterns of growth and change that occur in human beings between conception and death,” (Woolfolk & Perry, 2012, p. 4). For the purposes of this course, we will follow human physical, social, emotional and cognitive growth from infancy to adulthood. Using the biopsychosocial approach, we will study the maturation of human beings to better understand how both nature and nurture affect behavioral, cultural and cognitive trajectories. Finally studying both continuity and change that occurs as we develop, major issues, controversies and cross-cultural perspectives will arise to spark discussion.

## Course Objective:

This course is designed to provide an overview of developmental psychology and to discuss applications of the material to your everyday life. Research related to human development through the stages will be explored. In addition, we will analyze the experiences of human beings from non-dominant backgrounds as well as foster

critical thought of a couple empirical journal articles and theories about human development. Memorization is not key... rather your understanding of common and unique behaviors and mental processes of the human being at each life stage.

### Student Learning Outcomes:

Throughout the course, you will be encouraged to think about how the research presented can shed light on events going on around the world and in your own lives. Briefly stated, the objectives of this course include (though are not limited to):

1. Given major theories of human development, students will be able to identify general and specific scientific processes embedded in these theories and give examples of developmental theory progression.

**Method of Formative Assessment:** Quizzes, Assignments and Final Exam

2. Given social and cultural issues surrounding stages of prenatal and birth, infancy, childhood, adolescence, early and late adulthood, and death students will be able to examine these issues effectively employing critical thinking techniques and skills.

**Method of Formative Assessment:** Quizzes, Assignments and Final Exam

3. Given that cognition and emotion are important elements of the developmental process, evaluating your own, and another's development will be practiced by consistently posting comments and working as a member of a team to solve problems throughout the course duration.

**Method of Formative Assessment:** Discussions and Group-work

4. Given that both nature and nurture influence behavioral, cultural, affective and cognitive trajectories, students will analyze patterns of growth and change inherent in development, and provide concrete solutions to major issues, controversies and cross-cultural perspectives.

**Method of Formative Assessment:** Discussions, Group-work and Final Exam

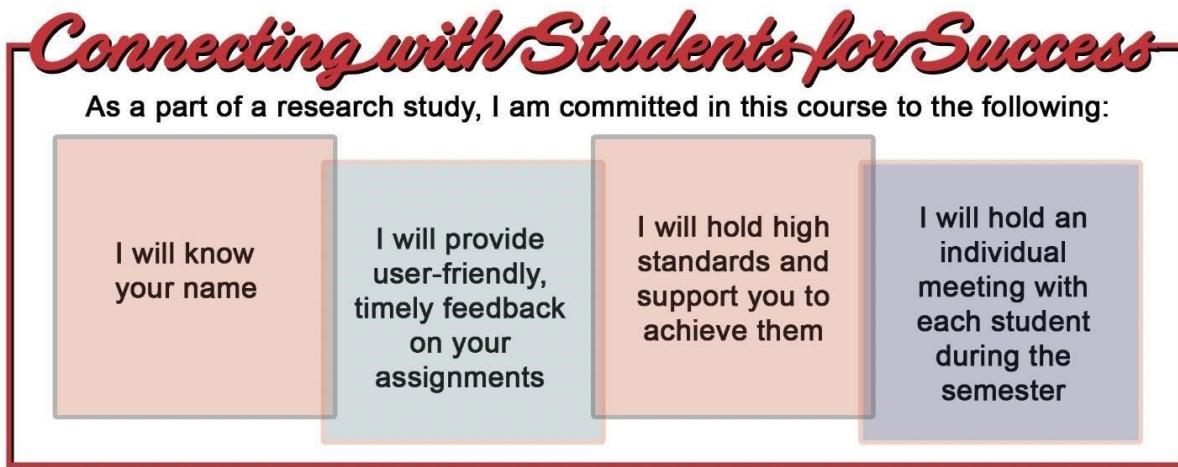

### Course Requirements:

1. The text must be obtained (DIGITAL, and older edition is acceptable).

2. Respect for students and lecturer must be maintained at all times when we meet online and in person.

Importantly, this class will foster free expression, critical investigation, and an open discussion of ideas. This means that all of us must help create and sustain an atmosphere of tolerance, civility, and respect for the viewpoints of others. Similarly, we must all learn how to probe, oppose and disagree without resorting to tactics of intimidation, harassment, or personal attack. No one is entitled to harass, belittle, or discriminate against another on the basis of race, religion, ethnicity, age, gender, national origin, or sexual preference. We will do our best to embrace the difficulty of fruitfully discussing controversial and sensitive issues. Respect is a basic human characteristic that entitles each person to their own rights and identity. It also helps to nurture a healthy learning environment. If you recognize that respecting others may be a problem, please be courteous and alert me or more suitable personnel (e.g. Sul Ross State University psychologists, family members, lecturers, close friends) and or refer to the Student Conduct and Discipline section of the [SRSU Student Handbook](#).

## Connecting with Students (Research Study)

This course will be participating in an initiative at our university referred to as “Connecting with Students for Success”. This study is aimed at connecting with students in a substantial way with the overall goal of elevating your success. As part of this study, you will be required to meet with me at least once during my office hours before Spring Break. Our meeting will count towards your participation grade. You will also be required to complete a survey at the end of the semester to determine how beneficial learning together helped you. Please schedule an appointment with me in advance: <https://calendly.com/amtsulross/office-hours-appointment>

### SRSU Disability Services:

SRSU Accessibility Services. Sul Ross State University (SRSU) is committed to equal access in compliance with the Americans with Disabilities Act of 1973. It is SRSU policy to provide reasonable accommodations to students with documented disabilities. It is the student's responsibility to initiate a request each semester for each class. Students seeking accessibility/accommodations services must contact Ronnie Harris, LPC, SRSU's Accessibility Services Director, at 432-837-8203 or [ronnie.harris@sulross.edu](mailto:ronnie.harris@sulross.edu). Our office is located on the first floor of Ferguson Hall, room 112, and our mailing address is P.O. Box C122, Sul Ross State University, Alpine, Texas, 79832.

Sul Ross has partnered with TimelyCare where all SR students will have access to nine free counseling sessions. You can learn more about this 24/7/356 support by visiting Timelycare/SRSU. The SR Counseling and Accessibility Services office will continue to offer in-person counseling in Ferguson Hall room 112 (Alpine campus), and telehealth Zoom sessions for remote students and Sul Ross International students.

### Library Services Statement

The Bryan Wildenthal Memorial Library in Alpine offers FREE resources and services to the entire SRSU community. Access and borrow books, articles, and more by visiting the library's website, [library.sulross.edu](http://library.sulross.edu). Off-campus access requires logging in with your Lobold and password. Librarians are a tremendous resource for your coursework and can be reached in person, by email ([srsulibrary@sulross.edu](mailto:srsulibrary@sulross.edu)), or by phone (432-837-8123).

No matter where you are based, public libraries and many academic and special libraries welcome the general public into their spaces for study. SRSU TexShare Cardholders can access additional services and resources at various libraries across Texas. Learn more about the TexShare program by visiting [library.sulross.edu/find-and-borrow/texshare/](http://library.sulross.edu/find-and-borrow/texshare/) or ask a librarian by emailing [srsulibrary@sulross.edu](mailto:srsulibrary@sulross.edu).

Mike Fernandez, SRSU Librarian, is based in Eagle Pass (Building D-129) to offer specialized library services to students, faculty, and staff. Utilize free services such as InterLibrary Loan (ILL), ScanIt, and Direct Mail to get materials delivered to you at home or via email.

### **Honoring Academic Integrity**

Students in this class are expected to demonstrate scholarly behavior and academic honesty in the use of intellectual property. A scholar is expected to be punctual, prepared, and focused; meaningful and pertinent participation is appreciated. Students should submit work that is their own and avoid the temptation to engage in behaviors that violate academic integrity, such as turning in work as original that was used in whole or part for another course and/or professor; turning in another person's work as one's own; copying from professional works or internet sites without citation; collaborating on a course assignment, examination, or quiz when collaboration is forbidden. Other instances of academic misconduct are lying in connection with your academic work, cheating, misrepresenting facts and/or collusion and **using open AI sources unless *permission is expressly given*** for an assignment or course. Violations of academic integrity can result in failing assignments, failing a class, and/or more serious university consequences. These behaviors also erode the value of college degrees and higher education overall. All these are contrary to the purpose of any educational institution and will be dealt with **most severely** to the extent of the university's disciplinary policy and/or through legal action if indicated. An instructor who determines that a student has been dishonest academically can at a minimum issue no credit for the assignment/exam, and/or pursue more severe penalties, including but not limited to failing the course. Further information about *Academic Honesty* can be read in the [SRSU Student Handbook](#).

*In this course, we may use generative AI tools (such as ChatGPT) to examine the ways in which these kinds of tools may inform our exploration of the topics of the class. You will be informed as to when and how these tools will be used, along with guidance for attribution if/ as needed. Your use of generative AI tools must be properly documented and cited for any work submitted in this course. Any use of generative AI tools outside of these parameters constitutes plagiarism and will be treated as such.*

### **CHILDREN IN THE CLASSROOM**

The policy described here is a reflection of my own beliefs and commitments to student, staff, and faculty parents.

1. All exclusively nursing/breastfeeding babies are welcome in class as often as is necessary to support the nursing/breastfeeding relationship. Because not all nursing parents can pump sufficient milk, and not all babies will take a bottle reliably, I never want students to feel like they have to choose between feeding their baby and continuing their education. You and your nursing baby are welcome in class anytime.
2. For older children and babies, I understand that minor illnesses and unforeseen disruptions in childcare often put parents in the position of having to choose between missing class to stay home with a child and leaving him or her with someone you or the child does not feel comfortable with. While this is not meant to be a long-term childcare solution, occasionally bringing a child to class in order to cover gaps in care is perfectly acceptable.

3. I ask that all students work with me to create a welcoming environment that is respectful of all forms of diversity, including diversity in parenting status.
4. In all cases where babies and children come to class, I ask that you sit close to the door so that if your little one needs special attention and is disrupting learning for other students, you may step outside until their need has been met. Non-parents in the class, please reserve seats near the door for your parenting classmates.
5. Finally, I understand that often the largest barrier to completing your coursework once you become a parent is the tiredness many parents feel in the evening once children have finally gone to sleep. The struggles of balancing school, childcare and often another job are exhausting! I hope that you will feel comfortable disclosing your student-parent status to me. This is the first step in my being able to accommodate any special needs that arise. While I maintain the same high expectations for all student in my classes regardless of parenting status, I am happy to problem solve with you in a way that makes you feel supported as you strive for school-parenting balance.

## Marketable Skills

1. Speaking Effectively: Students will demonstrate competency in public speaking and communicating scientific information to diverse audiences.
2. Describing Feelings: Students will demonstrate empathic or active listening and conversational skills, and/or write clearly about their affective stance, respectfully attuned to the needs of their audiences.
3. Identifying Resources: Students will demonstrate the aptitude to locate, organize and evaluate the credibility of information from multiple sources.
4. Analyzing: Students will demonstrate ability to examine the underlying issues of a scientific problem, attending to the pertinent details and creating a plan of action, recognizing ambiguity and complexity as essential components.

## Observing Class guidelines

### Class Participation

This is a course that requires online discussion and experiences. **Class attendance IS REQUIRED and participation is important.** Class participation and attendance will be worth 20% of the final grade, and include prompt and regular attendance, active listening, writing, participating via an online poll or quiz, and engaging in online discussions. Besides attendance, all other forms of participation judged subjectively by me that showcases active involvement will increase your participation grade. Excused absences due to established religious observance, or emergency, university-authorized, legal or medical issues and events will not count toward the absence limit but do require written documentation. At your earliest convenience, arrange to make up any missing work as far in advance of your absence as possible. If you are unable to attend a class session for other circumstances, please discuss the reason with me and make arrangements with another student to obtain any notes, handouts or assignments you may have missed. **Excessive unexcused absences (more than 4 missed class sessions) WILL result in a failing grade for the course.** I reserve the right to drop a student from the class with a failing grade by April 7th if the number of unexcused absences exceed a three-week span.

***Online Meetings – Our online Microsoft Teams meetings held on Monday and Wednesdays 12:30 to 1:45pm. These are mandatory and your video needs to be turned on for this course. I will be elaborating further on the textbook readings in Perusall and answer your questions about assignments.***

***Distance Education Statement.*** Students enrolled in distance education courses have equal access to the university's academic support services, such as library resources, online databases, and instructional technology support. For more information about accessing these resources, visit the SRSU website. Students should correspond using Sul Ross email accounts and submit online assignments through Blackboard, which requires a secure login. Students enrolled in distance education courses at Sul Ross are expected to adhere to all policies pertaining to academic honesty and appropriate student conduct, as described in the student handbook. Students in web-based courses must maintain appropriate equipment and software, according to the needs and requirements of the course, as outlined on the SRSU website. Directions for filing a student complaint are located in the student handbook [SRSU Student Handbook](#).

***Regular communications with the professor:*** It is essential that you keep me current on your progress and any difficulties you may be having so that I can respond in real time to support your success. GENERAL QUESTIONS are to be posted to [Messages](#) in Blackboard. For PERSONAL or PRIVATE ISSUES email me at [alicia.trotman@sulross.edu](mailto:alicia.trotman@sulross.edu) or call me at 432-837-8147 or make an appointment with me (<https://calendly.com/amtulsulross/office-hours-appointment>) or text me on Microsoft Teams. I strive to respond as soon as possible. If you do not receive a reply within 48 hours during the work week, please resend your email.

#### **Course Behaviors - Respect and Disruptions**

Watch the VIDEO on NETTIQUETTE - [https://www.youtube.com/watch?v=FWMk\\_Zv7nB8](https://www.youtube.com/watch?v=FWMk_Zv7nB8) and <https://www.youtube.com/watch?v=80uRE972uQ0>

All full-time and part-time students are responsible for familiarizing themselves with the [Student Handbook](#) and the [Undergraduate & Graduate Catalog](#) and for abiding by the [University rules and regulations](#). Additionally, students are responsible for checking their Sul Ross email as an official form of communication from the university. Every student is expected to obey all federal, state and local laws and is expected to familiarize themselves with the requirements of such laws.

You are encouraged and expected to openly engage in discussions, ask questions, share ideas, and express your thoughts in this face-to-face course. Please treat each other with dignity and respect and avoid disruptive behaviors. You are responsible for knowing what behaviors are acceptable versus unacceptable as referred to in the Student Conduct and Discipline section of the [SRSU Student Handbook](#).

#### **Late Assignments/Projects/Checklists**

You are expected to meet assignment, quiz, discussion and journal deadlines. Discussion and journal posts submitted after their due dates will be marked as zero. Late assignments will be reduced by 10% of the overall assignment for the first day of lateness and 40% for lateness beyond that for unexcused absences. For excused absences (university-authorized, legal or medical issues), speak with me **before the absence** so arrangements can be made.

## **EVALUATION**

**Quizzes** – These quizzes are marked as (Q) below and in the course schedule. This is an online 10 question test given to ensure that you have *read the chapter* and understand the most pertinent concepts. Thus, try to complete the quiz as we're covering the associated chapter. These quizzes are available for the duration of the course but must be completed by **Wednesday April 29th**. ***They will be marked as zero after this date.*** These are automatically

graded so you will receive immediate feedback for incorrect answers. You have only two chances to complete the checklist and they are all twenty minutes long.

Assignments – These assignments are marked as (A) below, and in the course schedule and there are eleven (11) assignments in total. These assignments are designed to challenge you to use your critical thinking skills, and to gain a stronger understanding of developmental psychology perspectives.

Discussion Posts – These discussion posts are marked as (D) below, and in the course schedule and there are five (5) discussions in total. All these discussions will occur in class and may be extended online if we run out of time. You and your group members must respond online after the in-class discussion to receive your points. Also, you must post and respond to these discussions in a timely manner, as shown in the course schedule. A rubric is provided to assess how discussions are scored. All paired or grouped discussions that have no posts and/or replies and must be completed by **Wednesday April 29th**. ***They will be marked as zero after this date.*** A rubric is provided to assess how discussion posts are scored.

Journal – These journal entries are marked as (J) below, and in the course schedule, and there are five (5) journal entries in total. Your journal entries will not be shared with other students in the class, so you can choose to write freely. Your journal is available for the duration of the course but must be completed by **Wednesday April 29th**. ***They will be marked as zero after this date.*** A rubric is provided to assess how journal entries are scored.

Midterm and Final Exams - Two (2) exams will be given during the course of this term. They consist of 50 questions each. At most 10% percent of the questions for these two exams will be derived from the quizzes. The dates of the exams are listed below in the class schedule. Please note that there are no **make-up exams** unless you are absent due to illness and with documented proof.

### Grading

Students are expected to complete reading assignments prior to class sessions and to engage in thoughtful discussions in light of these assignments. In addition, students will take an in-class midterm and an in-class final exam (objective short answer, multiple choice and/or essay).

Grading:	1000 points total	Final Grade
Syllabus Quiz	10 points	1%
Quizzes	150 (10 @ 15 points each)	15%
Assignments	110 (10 @ 11 assignments)	11%
Discussion	100 (20 @ 5 posts)	10%
Journal	150 (30 @ 5)	15%
Attendance/Participation:	200 points	20%
Midterm Exam:	140 points	14%
Final Exam:	140 points	14%
