

EDUA 5323
Appraisal of Educational Disabilities

Fall 2026

Nehal Elramly, PhD
Assistant Professor
Educational Diagnostician Program
Phone: 424-327-4292
Office: MAB 309 B

Virtual Office hours via Blackboard

Saturday 9am-1pm
By appointment: Tues/Thur. 5:00pm - 9:00 pm

Course Description:

Required for educational diagnostician certification. Students will administer, score, and interpret major academic achievement tests used to identify educational disabilities, and design appropriate instruction and services. Students will examine current trends in programs designed for early identification and intervention of possible educational disabilities. Factors involved in multicultural assessment will be addressed. (This is a prerequisite to 5306).

Textbooks

Required Text

Sattler, J. M. (2014). *Foundations of behavioral, social and clinical assessment of children (7th ed)*. La Mesa, CA: Jerome M. Sattler, Publisher, Incorporated.

Required Media Purchase for Program:

Materials needed for purchase

- 2 iPads (1 practitioner and 1 client)

Additional recommended materials:

- Two styluses for writing notes and capturing examinee responses
- Two anti-glare screen covers to minimize glare from interior lighting
- Two durable cases to protect iPads

System, Browser and Tool Requirements can be found at the following link provided:

[Blackboard Help](#)

Course Objectives

ED 5323 will contribute to the following Student Learning Outcomes (SLOs):

- Identify and administer appropriate psycho-educational tests for purposes of determining disability criteria for specially designed instruction for students served in the kindergarten – 12th grade school system.
- Interpret psycho-educational report to recommend evidence-based practices for specially designed instruction for students served in the kindergarten – 12th grade school system.
- Create collaborative relationships with stakeholders and professional responsibilities as an Educational Diagnostician in the kindergarten through 12th grade school system.
- Create a psycho-educational report after analysis of qualitative and quantitative data to determine disability criteria for specially designed instruction for students in the kindergarten – 12th grade school system.

Program Marketable Skills:

Research Skills and Awareness

- Exhibit knowledge of advances and developments in their field
- Demonstrate knowledge of research in related fields and disciplines
- Analyze and synthesize new and complex information from diverse sources
- Formulate and apply solutions to research problems and effectively interpret research results
- Exercise critical judgement
- Demonstrate appropriate procedures for standardized testing
- Appreciate basic principles of project and time management
- Utilize descriptive statistics
- Identify the effects of bias
- Demonstrate problem-solving skills
- Utilize organization and time-management skills for prioritizing workload
- Demonstrate self-management for planning improving personal practice.

Communication Skills

- Demonstrate effective technical writing skills
- Effectively use and decide on appropriate forms and levels of communication
- Communicate and explain analysis to diverse audiences, including both specialists and non-specialists
- Demonstrate a use of technology for a variety of management purposes
- Collaboration and leadership
- Develop and maintain effective relationships with colleagues
- Work in a collaborative environment
- Acknowledge others' views with a willingness to reflect on and critically appraise them
- Demonstrate leadership in team environments to work effectively to achieve mutual goals
- Utilize digital technology for collaboration

- Demonstrate interpersonal skills, with the ability to work collaboratively as part of a team
- Sensitively disseminate confidential information

Ethics and Social Justice

- Apply research and principles of ethical conduct during assessment
- Define consequences of social injustice poverty, racism, inequity, violence, isolation, and economic segregation as it relates to disability
- Advocate for free and appropriate public education in the least restrictive environment
- Use of professional formatting for research (e.g. APA) and avoidance of plagiarism, allocation of credit and authorship and definitions of research misconduct
- Describe the impact of research for individuals, groups and society with respect to disability
- Apply federal protections associated with disability (e.g. FERPA, ADA, IDEIA)
- Utilize ethical judgement for the advocacy of others

Course Objectives:

- Complete an evaluation report
- Analyze tests for adequacy
- Describe eligibility criteria for disabilities within Texas Framework
- Describe Texas procedures for assessment
- Administer formal cognitive, achievement, and adaptive behavior tests
- Describe cultural and linguistic factors that would influence testing
- Describe and utilize test batteries for cognitive, achievement, and adaptive behavior
- Describe the descriptive statistics used for formal assessment and eligibility determination
- Demonstrate proper administration of standardized tests

Professional Standards

This course is part of the Sul Ross State University, Graduate school of Education, Master's in Special Education Program as well as certification as an Educational Diagnostician. This program complies with the standards published by Texas Educational Agency which include:

Competency 001 (Identification for Special Education Evaluation and Services): Apply knowledge of requirements for identifying students who meet disability criteria and for determining the need for specially designed instruction and related services.

D. Demonstrate knowledge of issues related to the identification of and the overrepresentation and underrepresentation in special education of culturally and linguistically diverse student populations.

E. Demonstrate knowledge of important student information needed (e.g., cognitive, academic, communicative, physical, functional, adaptive, and social/emotional characteristics) from a variety of sources, including information regarding students' educational, developmental, medical, and family histories.

Competency 002 (Evaluation, Planning, Selection, and Administration): Apply knowledge of the functions and principles of assessment, assessments used to make educational and instructional decisions about students, and procedures and considerations in selecting and administering appropriate formal and informal assessments for individual students.

- A. Demonstrate knowledge of terminology and statistical concepts used in assessment and evaluation (e.g., data distributions, measures of central tendency).
- B. Demonstrate knowledge of standards for test norming, reliability, and validity; procedures used in administering and scoring assessment instruments; and sources of measurement error and potential bias.
- C. Apply knowledge of the uses and limitations of various types of assessment instruments (e.g., norm-referenced, criterion-referenced) and observation techniques (e.g., anecdotal, frequency, temporal) to identify students' disabilities and determine the presence of an educational need.
- D. Demonstrate the ability to choose relevant and appropriate assessments based on the technical quality of the instruments, referral concerns, data needed to make decisions, and individual student characteristics (e.g., ethnic, cultural, linguistic, age, or socioeconomic factors), and demonstrate knowledge of how to ensure fairness and equity in assessment results.
- F. Apply knowledge of methods used for academic and nonacademic assessments (e.g., vocational, developmental, behavioral, assistive technology, motor skills).
- H. Apply knowledge of administration and scoring procedures for various standardized assessments (e.g., basal, ceilings, testing the limits) and non-standardized assessments.

Competency 003 (Interpretation and Reporting of Evaluation Results): Apply skills for interpreting, reporting, and communicating the results of the Full and Individual Evaluation (FIE).

- A. Demonstrate knowledge of the uses and limitations of various types of formal and informal assessment and evaluation data.
- B. Demonstrate knowledge of the appropriate application and interpretation of derived scores (e.g., standard scores, percentile ranks, age and grade equivalents, stanines, T-scores, z scores).
- C. Apply knowledge of cultural and linguistic diversity in making appropriate evaluation and interpretation decisions.

Competency 007 (Legal and Ethical Practice): Apply knowledge of professional practices, roles, and responsibilities and the legal and ethical foundations of evaluation related to special education.

- G. Demonstrate knowledge of qualifications necessary to administer and interpret various assessment instruments and procedures for consistent use of these instruments across instructional settings.
- H. Demonstrate knowledge of organizations and publications relevant to the field of educational diagnosis and recognize the importance of engaging in activities that foster professional competence and benefit individuals with exceptional learning needs, their families, and/or colleagues

General Course Policies

LMS: This course will be delivered online in an asynchronous format via Blackboard Learning Management System. This course site opens on the first day of classes. Students are responsible for listening to and reviewing all recorded lectures provided by the instructor.

Schedule: Modules start on Monday, and finish on Sunday at midnight. You may work ahead.

Login Frequency: Students must actively check the course Blackboard site and their SRSU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week.

Participation: Students are expected to actively engage in all course activities throughout the length of the course which includes viewing all course materials, completing course activities, completing assignments, and participating in course discussions. Participation is required for synchronous meetings.

Technical Competence: Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

Technical Issues: Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

Workload: Please be aware that this course is not self-paced. Students are expected to meet specific deadlines and due dates listed in the Class Schedule section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

Instructor Support: Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

Writing Expectations: A large component of an Educational Diagnostician's workload is professional writing and synthesis of information. Therefore, a large part of the preparation and participation with this course will involve writing. Students will use APA format when writing. Writing should be free from jargon, grammar errors and writing mechanics errors. References should be properly cited.

Netiquette: The course environment is a collaborative space. Innocent remarks typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so that others do not consider them as personal offenses. Be positive in your approach with others and diplomatic in selecting your words. Remember that you are not competing with classmates but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

Accommodations: Online learners who require effective accommodations to ensure accessibility must be registered with SRSU Disability Services.

Grading Policy: All assignments should be submitted via Blackboard by midnight on the due date. Late work will not be accepted unless arrangements with the instructor have been approved before the original due date. Approval will only be granted under extremely unusual circumstances (e.g. major medical event, bereavement).

Late Assignment Policy (Life Happens Policy): Course assignments, including discussion boards, exams, and other graded assignments, should be submitted on time. If you are unable to complete an assignment on time, a ONE TIME, one week extension is granted **except** for the

final assignments due at end of course. It is expected that late assignments will be turned in at the next module or week for the next grading cycle. For example, assignments that were missed in week three will be turned in at the due date of week four. Students are not required to contact the professor or provide an excuse. Should students fail to turn in assignment at the next grading cycle a failed grade will be submitted. It is the student's responsibility to complete assignments by the due date. The policy is implemented upon first late submission and additional extensions will not be granted.

Changes to Syllabus: This syllabus is intended to give the student guidance in what may be covered during the semester and will be followed as closely as possible. However, the professor reserves the right to modify, supplement and make changes as the course needs arise.

Copyright: Many of the materials and readings for this class have copyright protection. They are for your sole educational use and should not be shared, copied or distributed without permission of the instructor or the copyright holder. Please refer to the Student Handbook for details on your responsibilities regarding copyright and penalties for copyright infringement. If you have questions about sharing specific materials outside the course, either with colleagues at Sul Ross State University or on the internet, please ask me.

Opportunities for Revision: This course is a writing intensive course. Revision opportunities are available should contributions not meet the standards for this course. The instructor will reach out and either suggest a revision or give guidance for similar activities (e.g. discussion board) for the following module. However, extensions and revisions are not offered for work that is missing. Additionally, should the student not apply suggestions at the next module or complete suggested revisions, no further opportunities will be offered. Revisions must be completed within the next module grading period (Sunday, 11:59 pm) from when feedback is given.

University Policies

ADA Statement

SRSU Accessibility Services. Sul Ross State University (SRSU) is committed to equal access in compliance with the Americans with Disabilities Act of 1973. It is SRSU policy to provide reasonable accommodations to students with documented disabilities. It is the student's responsibility to initiate a request each semester for each class. Students seeking accessibility/accommodations services must contact Mrs. Mary Schwartz Grisham, LPC, SRSU's Accessibility Services Director or Ronnie Harris, LPC, Counselor, at 432-837-8203 or email mschwartz@sulross.edu or ronnie.harris@sulross.edu. Our office is located on the first floor of Ferguson Hall, room 112, and our mailing address is P.O. Box C122, Sul Ross State University, Alpine. Texas, 79832.

Student Responsibilities

All full-time and part-time students are responsible for familiarizing themselves with the [Student Handbook](#) and the [Undergraduate & Graduate Catalog](#) and for abiding by the [University rules and regulations](#). Additionally, students are responsible for checking their Sul Ross email as an official form of communication from the university. Every student is expected to obey all federal, state and local laws and is expected to familiarize him/herself with the requirements of such laws.

SRSU Distance Education Statement

Students enrolled in distance education courses have equal access to the university's academic support services, such as library resources, online databases, and instructional technology support. For more information about accessing these resources, visit the SRSU website.

Students should correspond using Sul Ross email accounts and submit online assignments through Blackboard, which requires a secure login. Students enrolled in distance education courses at Sul Ross are expected to adhere to all policies pertaining to academic honesty and appropriate student conduct, as described in the student handbook. Students in web-based courses must maintain appropriate equipment and software, according to the needs and requirements of the course, as outlined on the SRSU website. Directions for filing a student complaint are located in the student handbook.

Counseling

Sul Ross has partnered with TimelyCare where all SR students will have access to nine free counseling sessions. You can learn more about this 24/7/365 support by visiting [Timelycare/SRSU](https://timelycare.com/srsu). The SR Counseling and Accessibility Services office will continue to offer in-person counseling in Ferguson Hall room 112 (Alpine campus), and telehealth Zoom sessions for remote students and RGC students.

Libraries

The Bryan Wildenthal Memorial Library and Archives of the Big Bend in Alpine offer FREE resources and services to the entire SRSU community. Access and borrow books, articles, and more by visiting the library's website, library.sulross.edu/. Off-campus access requires logging in with your LoboID and password. Librarians are a tremendous resource for your coursework and can be reached in person, by email (srsulibrary@sulross.edu), or by phone (432-837-8123).

No matter where you are based, public libraries and many academic and special libraries welcome the general public into their spaces for study. SRSU TexShare Cardholders can access additional services and resources at various libraries across Texas. Learn more about the TexShare program by visiting library.sulross.edu/find-and-borrow/texshare/ or ask a librarian by emailing srsulibrary@sulross.edu.

Mike Fernandez, SRSU Librarian, is based in Eagle Pass (Building D-129) to offer specialized library services to students, faculty, and staff. Utilize free services such as InterLibrary Loan (ILL), ScanIt, and Direct Mail to get materials delivered to you at home or via email.

Academic Integrity

Students in this class are expected to demonstrate scholarly behavior and academic honesty in the use of intellectual property. Students should submit work that is their own and avoid the temptation to engage in behaviors that violate academic integrity, such as turning in work as original that was used in whole or part for another course and/or professor; turning in another person's work as one's own; copying from professional works or internet sites without citation; collaborating on a course assignment, examination, or quiz when collaboration is forbidden. Students should also avoid using open AI sources *unless permission is expressly given* for an assignment or course. Violations of academic integrity can result in failing assignments, failing a class, and/or more serious university consequences. These behaviors also erode the value of college degrees and higher education overall.

Classroom Climate of Respect

Importantly, this class will foster free expression, critical investigation, and the open discussion of ideas. This means that all of us must help create and sustain an atmosphere of tolerance, civility, and respect for the viewpoints of others. Similarly, we must all learn how to probe, oppose and disagree without resorting to tactics of intimidation, harassment, or personal attack. No one is entitled to harass, belittle, or discriminate against another on the basis of race, religion, ethnicity, age, gender, national origin, or sexual preference. Still, we will not be silenced by the difficulty of fruitfully discussing politically sensitive issues.

Supportive Statement

I aim to create a learning environment for my students that supports various perspectives and experiences. I understand that the recent pandemic, economic disparity, and health concerns, or even unexpected life events may impact the conditions necessary for you to succeed. My commitment is to be there for you and help you meet the learning objectives of this course. I do this to demonstrate my commitment to you and to the mission of Sul Ross State University to create a supportive environment and care for the whole student as part of the Sul Ross Familia. If you feel like your performance in the class is being impacted by your experiences outside of class, please don't hesitate to come and talk with me. I want to be a resource for you.

Tutoring Center

[The Lobo Den Tutoring Center](#) offers FREE tutoring support to help you excel in your courses. Whether you need assistance in Writing, Math, Science, or other subjects, we're here to help!

Important Information:

- **Drop-in and Scheduled Appointments:** Flexible options to fit your needs.
- **Hours of Operation:** Monday–Friday, 8:00 AM – 5:00 PM.
- **Workshops:** Attend our regularly hosted academic workshops on STEM topics and professional development, often in collaboration with specialized faculty.
- **Location:** BWML Room 128.
- **Contact Us:** For more information or to book an appointment, email tutoring@sulross.edu or call (432) 837-8726.

Looking for additional support?

- Tutor.com offers FREE 24/7 online tutoring in over 200 subjects, including specialized support for ESL and ELL learners with native Spanish-speaking tutors.
- Access Tutor.com via Blackboard: Log in to your Blackboard account to get started anytime, anywhere.

Take advantage of these valuable resources to boost your confidence and performance in your classes. We look forward to helping you succeed!

Specific Course Requirements

Test Kits and Materials

Option A: Electronic Administration and Scoring of clinical assessments using 1:1 iPads

Beginning Summer and Fall Cohort Students for 2022 are requested to purchase iPads and electronic support for testing. Doing so will provide a greater depth and breadth of understanding psychometric testing. Additionally, many districts are switching to iPad use. Students may still be required to borrow non-electronic psychometric testing from their district or the university. For students experiencing economic hardship other arrangements can be made (see below regarding Test kit ordering and shipping). However, students will still be required to ship and ensure testing kits provided by the university at the student's expense.

Justification for Expense

Many classes in the program have utilized Open Educational Resources (OER) such as textbooks to reduce the burden of purchasing outside materials for your classes. For example, ED 6314 and ED 6318, taught by instructors in the Educational Diagnostician Program utilize free textbooks and materials. Additionally, iPads will be used for 3 to 4 classes in your program (saving you money), depending on the track that you are on. You also have free access to tests and protocols purchased by the university which are at no cost to you. Based upon the frequent usage and other cost reduction measures, this will be cost effective.

A video regarding electronic testing can be found at the following link provided:

<https://www.youtube.com/watch?v=IFe-dTLXgUw&t=1s>

Option B: Test Check Out by District of Employment: Many students opt to borrow their district's testing materials. Districts are not required to lend their material. The use of a district's kits and materials is an agreement solely between the student and the district. Sul Ross State University assumes no responsibility in the agreement.

Permission to Evaluate: Signed parent consent must be uploaded for standardized testing. It is important to note that you may not share the information of your evaluation and that it is for instructional purposes only. Form will be available in Blackboard

Parent Interview: You will complete a parent interview to be incorporated into your final report. Parent interview is fluid and information for how to interview is explained in your text. There is no correct way to complete an interview, and this will be left to your discretion. There is not a specific format except to find out information home life, developmental history and physical history. Two questionnaires are provided in blackboard. You are required to synthesize this information to incorporate as part of your final report.

Observation of student: You will complete a 45-minute observation of a student as part of your FINAL achievement report. It is an informal assessment to gain information on how the child is performing on academic tasks that are weak. A qualitative narrative should be completed. Observation may be during homework time or a classroom observation. The observation will be completed and uploaded prior to adding to your final report for review.

Observation Rubric (90 points)

Criteria		0 points	5 points
		Area of Growth	Proficient
General Class Information	Time Date and Location	Time Date and Location are missing	Time, Date and Location are given in the first sentence of observation
	General Classroom environment	General Classroom environment is not discussed	Description of the environment (type of class; student to teacher ratio; disabilities present)
	General Description of teaching and instructional methods for the class	General description is missing or limited	Instructional methods (whole group; small group; learning center, one-on-one; hands on; independent seatwork, other)
	General information about instructional materials available to the class for the activity	Instructional materials are missing	Instructional materials (worksheets; manipulatives; books; AT; Board; technology; other)
	General description of the activity	Classroom activity and lesson is not clear	Description of the activity or lesson of the class
	Adaptations or Universal Design for learning applications for the lesson	Accommodations or lack of are not noted	Adaptations, accommodations or scaffolding noted for the class
	Behavior Management	Classroom Management techniques or lack of are missing	Behavior management strategies used during time of observation either in the classroom or part of the lesson is noted
Specific Student Observation	Description of Student	Physical description of student is missing or limited	General Description of Student is provided

	Student Activity	Student's academic activity in relation to class is missing	Student's academic activity is explained
	Activity level of student	Activity level is missing	Activity level in comparison to other students is noted (e.g. fatigue, alert)
	Attention	Attention to task is missing	Attention issues are noted in comparison to other students (Executive Processing; shifting attention, sustaining attention, inhibiting responses, initiating response)
	Accommodations	Accommodations specific to the student are not addressed (even if lacking)	Accommodations are/are not provided to student and are noted
	Communication	Communication in comparison to peers is not addressed	Communication skills in comparison to peers is noted
	Transition	Transition is not addressed	Transition to tasks, physical environment or activities are noted
	Difficulty of tasks	Frustration level is not addressed or stated not observed	Student Response to difficult or easy tasks is noted
	Interaction	Interaction to others not addressed	Student Interaction with peers and/or adults is noted
Synthesis	Student Performance in relation to class	Comparison to peers not addressed	Informal assessment; Curriculum Based Measure or Error Analysis; or Professional view is provided regarding student performance; If student is within normal limits it is explained in detail

	Grammar and written mechanics	Observation contains errors and uses "I" statements (e.g. I observed...)	Observation is free from errors in writing; Professional quality and appearance
--	-------------------------------	--	---

Calculate Age Activity This activity is an introduction into how to calculate age for a standardized test. Read through PowerPoint. Then complete and submit the activity.

Video Submission and Self-Analysis The purpose of this assignment is to demonstrate proper administration of a standardized test.

- Review manual and testing procedures of chosen test
- Review Rubric for conducting an assessment found in blackboard
- Review reference materials (e.g. power point, videos) if applicable to chosen test
- Administer test
- Record the first three subtests of your chosen test for submission

When recording please do the following:

- Only record one subtest
- Pan the area you are testing at the beginning of testing
- Give a brief description of the test you will be administering
- Make sure testing materials can be seen
- Do not record your test subject. You, as the examinee are being evaluated and recorded
- Both you and the test subject should be heard
- Upload the video in an unlisted YouTube Account (explanation in Blackboard)
- Use the provided rubric (in Blackboard) to review your recorded administration.
- Complete a **1-page reflection** using the rubric as a guide for areas of growth and success
- Upload the reflection and YouTube link for submission.
- The instructor will also review your submission and provide additional feedback.

Chapter Quizzes varies see grading for more information

Protocols and Test Administration:

You will administer the **WIAT-4, ABAS-3, and WISC-V**

Protocol Rubrics

Point Value	0 points	5 points
Criteria	Area of Growth	Proficient
Test subject	Incomplete information	information clearly written and completely on protocol regarding test subject except for personal information being redacted (school and name)

Basal established	*Exception Protocol One; Basal is not followed or missing	Basal established and guidelines followed according to subtest procedures
Ceiling established	*Exception Protocol One Ceiling not established or missing	Ceiling established and guidelines followed according to subtest procedures
Raw Scoring appropriate	Raw score not accurately calculated on one or more subtests	Raw Scores calculated accurately
Standardized Scoring	Standard score errors on one or more subtests	Accurately calculated to reflect scaled score
Scaled Scoring	Scale Score errors on one or more subtests	Accurately calculated to reflect scaled score
Descriptors of performance		Description matches standardized score reflected in manual (e.g. "below average", "extremely low", "average")
Age calculation		Accurately calculates the age and includes any "rounding" that could occur in consideration for the days
Composites		Composite scores are accurately and completely filled out and calculated

WIAT administration due week 4 – Use an adult test subject, administer the test battery in its entirety and upload score report. When using an age scoring use 16.0.

Child Case Study/Psychoeducational Assessment

This class will build on a psychoeducational assessment that will be completed in steps throughout the semester. For the final psychoeducational assessment that is due on week 15, you will use ONE child subject. You will secure permission to test from the parent. It may be your own child, a child in your classroom or another volunteer. The child must be between the ages of 6 and 16 years of age. You will complete the following components during the semester:

- WIAT administration and score report
- Analysis of WIAT scores
- ABAS administration and score report
- Classroom/homework observation
- Parent interview
- WISC-V administration and score report
- Review Educational Records

After week 12, you will have 3 weeks to complete your report which should include a summary that triangulates the data. It is not a simple cut and paste. More will be explained on Blackboard and during lectures. The purpose of the assignment is to score a formal standardized test and

write an interpretive report. You will be given a modified evaluation shell for completion of a screening dependent upon the activity. Guidance is highlighted in yellow within the shell to help the student examiner with content. Extraneous information should be deleted and should look like a professional report when submitted. Secondly, the first and last name of participant should be redacted from your evaluation when submitted. This can be done by highlighting the name and making it black or by replacing the name with XXX (e.g. Name = Name, Name=XXXXXX). Consult rubric and shell for more information. Deductions will be made for reports that have overt spelling, grammar and written mechanical errors. It should look professional in appearance.

WIAT Reflection- one page discussion on strengths and weaknesses; see blackboard for more information

Video recording of one subtest and submission – you will record yourself recording an administration of one subtest of the WIAT additional information found in Blackboard

Oral presentation – you will orally present your findings to your peers. The presentation will be 10 minutes in length. More information will be explained on Blackboard

Discussion Board postings will occur in this class

Grading

A=100-91% B=90-81% C=80-71% D=70-61%

The final point value is graded on curved performance of the class.

Graduate students must maintain a 3.0 GPA to remain in good standing. Grades of **Incomplete (I)** are not given in the Professional Studies Division of Sul Ross State University *except* in the *most extreme* situations

Course Schedule

All assignments and uploads are due on or before midnight of the Due Date

Week		Due Date
Week 1: Introduction to the Behavioral, Social, and Clinical Assessment of Children	Required Readings: Chapter 1 (Sattler) 7 th Ed iPad, Q interactive and Q global set up Activities: Quiz Introduce yourself to your cohort	09/06
Week 2: Conducting assessments and formal standardized tests	Required Readings: Chapter 2 (Sattler) 7 th edition book iPad, Q interactive and Q global set up Activities: Secure child study candidate Quiz	09/13
Week 3: Descriptive Statistics	Required Readings: Catch up from week 1 & 2	09/20

	Activities Descriptive Stats Quiz Calculate Age Activity	
Week 4: Achievement testing	Activities: Upload permission to test WIAT-4 score report Reflection Video submission	09/27
Week 5: Adaptive Behavior Assessment and why is it used?	Required Readings: Chapter 11 Activities Upload permission to test for child case study Administer the ABAS Discussion Board	10/04
Week 6: observations in the classroom	Required Reading: Chapter 10 and Chapter 14 Activities: Upload the ABAS of child case study (parent form) Upload Classroom observation of case study Quiz	10/11
Week 7: parent information confidentiality, culture, how to talk to parents; health information; testing observations	Activities: Parent interview Child Case study	10/18
Week 8: (Midterm) WIAT and Testing observations	Activities: WIAT Score report upload WIAT explanation of Scores upload	10/25
Week 9: Reviewing school records and the triangulation of data	Activities: Review of school records upload	11/01
Week 10: Cognitive Assessment and why is it used	Required Readings: WISC V manual Activities: Discussion Board activity Begin Administration of the WISC	11/08
Week 11: Behavior & Suicide Prevention	Required Readings: Chapter 13	11/15

	Activities: Upload suicide module Continue WISC	
Week 12: CLD learners	Required Readings: Chapter 3 (Sattler 7 th edition) Activities: Upload WISC score report CLD quiz	11/22
Week 13 & 14: SLD and dyslexia; report writing and triangulating data Oral Presentations of FIE	Activities Upload dyslexia module Continue Report writing Activities: Report writing Oral presentations of FIE	11/29
Week 15: EVERYTHING DUE	Activities: Final FIE Child Study report Oral presentation of FIE	12/06
