

PRESIDENT'S COMMITTEE/TEAMS ANNUAL REPORT

2020-2021 Academic Year

Committee Name: ADA Educational and Policy Committee

Briefly summarize primary activities for the year:

The ADA Educational and Policy Committee invited Jessie Lara of Physical Plant to meet through Zoom on Monday, March 22 at 3 p.m. to give an update on the current Alpine campus construction project. Our focus was the ADA accessible parking. Several spaces were temporarily eliminated or moved during construction. This change made building access hard for Library and University Center guests.

Mr. Lara gave the committee an update and stated that there will be more ADA parking spaces available once construction is complete.

Briefly summarize goals for the 2021-2022 academic year:

Review the current ADA policy (including Animals on Campus).

Prepared by the committee/team member: Karlin DeVoll, HR; Rebecca Greathouse Wren, CAS
