

# PRESIDENT'S COMMITTEE/TEAMS ANNUAL REPORT

2020-2021 Academic Year

Committee Name: Orientation Team

Briefly summarize primary activities for the year:

We previously contacted all new students and made them aware of virtual orientation. After participating online we dedicated a specific day, by site, where students could stop by and pick up a SRSU swag bag. We also took the opportunity to create student ID's as students would stop by each campus.

Briefly summarize goals for the 2021-2022 academic year:

The goals for 2021-2022 academic year are to engage students through virtual orientations by discipline. We also plan to integrate a family type orientation, once the pandemic allows us, where we can have students and their families attend orientation and become familiar with the facilities. We want the families to feel included in the student's academic journey. In order to do this we plan to have family activities in which everyone can participate, perhaps a BBQ, watch a football game, etc.

Prepared by the committee/team member: Juan Tamez
